Fate of Americans in Doubt.

May Have Fallen Prey to the Vicious Rebels in Nicaragua.

Word from Hundred and Twenty-five Citizens of United States.

Serious Diplomatic Questions for State Department to Solve.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, Sept. 1.—[Exclusive Dispatch.] A Washington dispatch to the Herald says: With the Nicaraguan revolutionaries split into small bands of marauding outlaws, as recent reports to the State Department seem to indicate, United States has on its hands a difficult diplomatic question to solve regarding the countries of Latin America than ever before in history. The apparently spent revolutionaries, the Madero government in Mexico, the attacks of the police of Mexico on Americans, the uprising of the Federal government in Mexico and the question of the collection of the customs of Santa Domingo, all these are difficult relations with the people of these respective countries. A mob of ragged, but well-armed, men according to recent dispatches to the State Department, have been wandering through the country near Managua, robbing and burning buildings on the outskirts of the capital and terrorizing residents. It is supposed they were part of a revolutionist band which escaped from the Federal forces two days ago.

OVER SCORE ARE DEAD.

Cloudburst Cause of a Wreck.

Seven Killed, Twenty Injured When Train Plunges Into Torrent.

Heat Wave Takes Eleven; Seven Are Drowned Seeking Relief.

Los Angeles One of Coolest Spots on Weather Map of United States.

(By Federal Wireless Line to The Times.)

CHICAGO BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] Planning down a steep embankment in the middle of the Wisconsin woods, an express train of the Northwestern Railroad this morning carried seven persons to their death. Five sleeping cars were overturned, and the seven killed, twenty-one others were badly injured. Several of them are expected to die.

The crash occurred five miles from Shawano, Wis., shortly before 4 o'clock in the morning. The washing out of a bridge spanning a small stream was the cause of the crash. A cloudburst, swelling the stream thirty minutes before the train was due, tore the bridge from its foundation.

PULLMANS WITHSTAND CRASH. Almost every member of the crew of the train was immediately killed. Only the occupants of the smoking car and day coach were among the injured. The heavy Pullmans, constructed of steel, withstood the crash and only the occupants of one of the sleeping cars were injured.

The train, composed of seven passenger sleeping cars, one day coach and one smoking car, was en route to Chicago from the sporting camps in the woods. It was before help arrived and Alex Scholls, a mail clerk caught in the wreckage, died while awaiting the arrival of the relief train.

Those killed were: C. BUSHBY, conductor, Green Bay; GEORGE MARKS, brakeman, Green Bay; CARROLL BENNETT, baggage man, Green Bay; STEWART G. SHELTON, express messenger, Green Bay; JOHN JONES, engineer, Green Bay; W. S. CALKINS, Shawano, passenger; ALEX SCHOLLS, mail clerk, Clintonville.

HEAT DEMANDS MANY VICTIMS. (By Federal Wireless) Line to The Times. CHICAGO BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] Eleven deaths and more than one hundred prostrations from the heat was the record of the next to the hottest day of the year in Chicago, today. Scarcely before the heated pavements and brick buildings had cooled off from the sun's rays of Saturday, the mercury began steadily to climb, until it reached 93, between 3 and 4 o'clock. At 5 o'clock, it reached 94 degrees.

SEVEN DROWNED. Four persons who fell on the street, prostrated, were rushed to the hospital, but could not be resuscitated. Seven persons were drowned in Lake Michigan, said in nearby ponds and rivers, where they were bathing, seeking to escape the terrific heat.

Suffering was great in all parts of the city, but more especially in the congested districts. Hundreds of thousands sought relief in the parks. But even here and along the lake shore, the heat was insupportable.

MORE THAN HUNDRED PROSTRATE. More than one hundred persons were prostrated on the streets in different parts of the city. Numbers of them are hovering between life and death at various hospitals.

The humidity was great and there was practically no wind. Even on the lake, a dead calm prevailed most of the day.

RELIEF TODAY. The weather man promises relief tomorrow. A light wind began to blow from the southwest tonight, and temperature with it. Cities south of Chicago have been practically untouched by the extreme heat wave which has hovered over sweltering Chicago.

BABIES SWEEPED TO DEATH. The death rate among babies is very high and a majority of them are specially suffering. They are being swept into a state of apoplexy over suffering from the heat. Impure milk and wretched sanitary conditions also have much to do with the high death rate among babies. In the congested districts, packed with foreigners, the parents gorge their babies upon the most unwholesome food and stomach ailments sweep them off at a rapid rate.

OTHER HOT PLACES. Charleston, S. C., was the only spot on the map showing a hundred above today. Jacksonville, Fla., was next.

CHURCH PICKETED.

Sunday Worship Is Disturbed.

Boy Strikers Gloat Over the Absentees from Choir Loft.

Entrance to St. Mark's in Chicago Surrounded by Recalcitrants.

Lads Harangue a Father Who Tries to Pacify the Youngsters.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO BUREAU OF THE TIMES, Sept. 1.—[Exclusive Dispatch.] Worshipers at St. Mark's Episcopal Church, thirty-sixth street and Cottage Grove, were kept at bay today by a group of strikers who wanted to service today developed in dignity and circumspection. The church was being picketed, practically by its striking choir boys. When the day was done, the strikers thought the honors about even.

The church members had the satisfaction of seeing reluctant boy sopranos marched to the choir loft by uncompromising parents. The choir boys, on the other hand, had had an opportunity to gloat over the number of absentees. While the services were going on they listened with critical ears at the windows and afterward they freely expressed the opinion the music was the worst they ever heard.

TROUBLE AT CHURCH. The trouble at the church is due to the retirement some time ago of W. J. Cox, the former choirmaster. He was succeeded by H. B. Goodwin, who had been assistant choirmaster. Cox was paid \$75 a month and Goodwin \$25 a month. When the change was made Goodwin's salary was not increased. He demanded "raises," and also asked that some of the boys who had come long distances to the church, be given their car fare. This was refused and the walkout followed.

"We had a live time as long as Billy Cox was choirmaster," said Carl Gunggroll, at his picket post alongside the church. "Every night after rehearsal we had a fine feed and a game in the parish house. It was good sport, too, when Mr. Goodwin was choirmaster."

FINISH OF FUN. "But when Dr. Wilson, the pastor, said he was going to be choirmaster and Cox left, we saw the finish of our fun. We want Cox to stick on the job, then we'll give the congregation its Sunday music."

The first worshippers to arrive at the morning session found the entrance of the church surrounded by the strikers. Nearly all the choir boys joined the strikers when they arrived, but a few were left by stern parents through the picket line and compelled to take their places in the choir. The choir then was augmented with members of the congregation and Sunday-school classes.

STRIKERS DISAPPOINTED. There was disappointment among the strikers when Burton Bryan, who was counted as one most loyal to the strike movement, arrived at the church in the custody of his father. Mr. Bryan arrived in his automobile and before alighting addressed the crowd of boys from the car.

"Burton is going to sing today," he announced declaimingly and then began a long argument to persuade the strikers to return to their places in the choir. Dr. Wilson, the pastor of South Chicago, who, with his twin brother, Ronald, belongs to the strike committee, replied to Mr. Bryan's speech, seeking to justify the strike.

URGED TO JOIN UNION. Charles Craig, organist, was surrounded by the strikers when he left the church and urged to join the union.

"I am not a member of the choir," he said, "I am playing the organ for money. But if I was a member I would not disgrace the church by causing this riotous."

Mr. Cox, the retired choirmaster, did not attend the services. Among other boys who did picket duty and brand their parents' wrath were George Wallace, No. 3762 Vincennes avenue, and Roy Wagner, No. 2519 Vincennes avenue. They were standing on the church steps with Constable Donald Thompson of South Chicago, who, with his twin brother, Ronald, belongs to the strike committee, replied to Mr. Bryan's speech, seeking to justify the strike.

BOOTH MEMORIAL. FRESNO, Sept. 1.—[By A. P. Night Wire.] Six pastors of local churches united with California H. I. Carroll in memorial services to the late Gen. William Booth held in the Court House. Park with a large inquisitorial crowd present.

THEY HARDLY WILL. There are more than 7000 national banks and more than 17,000 State banks in the country. It is a small percentage of them respond to the \$250 assessment, the fund will be an enormous one.

PEACH OF A LETTER. Dear Sir: "I ask you to be good enough to read the enclosed planks from the platform of the Progressive party. We believe they offer the merchants, manufacturers and industrial leaders of the country a national constructive charter of business prosperity. They constitute a contract made in good faith between the Progressive party and the people of the United States. Neither the Democrats or the Republicans have the courage to hold out any definite proposals on this important subject. "We intend to put a number of

TRAVELS THOUSANDS OF MILES TO WED.

MISS RHODA WILSON.

A charming English girl, who has just arrived in New York to wed a Honolulu man whom she met for the first time at the coronation of King George. Her fiancé traveled about six thousand miles to meet her in Gotham. They call it "meeting half way." She traveled about three thousand miles. Her fiancé is a wealthy sugar planter of Hawaii.

(By Federal Wireless Line to The Times.)

NEW YORK BUREAU OF THE TIMES, Sept. 1.—[Exclusive Dispatch.] As the outcome of a pre-romantic charming English girl and a wealthy sugar planter from Honolulu are to be wedded here this week. Each traveled thousands of miles to "meet half way" as they put it in the metropolis. She is Miss Rhoda Wilson and his name is Noel Deerr.

When King George was being crowned Miss Wilson and Mr. Deerr were spectators of the wonderful parade in Piccadilly, London. She had a seat in a grand stand and Mr. Deerr had to make the best of it on the sidewalk as the seats had all been sold before he got to London from Honolulu. The grand stand was so crowded that it collapsed. A number of persons were injured.

Among the first to arrive at the scene of the accident was Mr. Deerr and the first aid to the injured he bestowed went to Miss Wilson, whom he caricatured from the struggling mass of men, women and children.

That was the beginning of their acquaintance. They exchanged cards and after they separated they exchanged letters. They'll not write any more letters to each other now.

FINISHED. The trouble at the church is due to the retirement some time ago of W. J. Cox, the former choirmaster. He was succeeded by H. B. Goodwin, who had been assistant choirmaster. Cox was paid \$75 a month and Goodwin \$25 a month. When the change was made Goodwin's salary was not increased. MAIN BATTLE FOR ELECTORS.

Test of Amended Primary Law in California.

Complications in Courts Have Already Arisen.

Eighty Assembly Candidates to Be Nominated.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Sept. 1.—The first primary election involving the ultimate selection of Presidential electors, under the new California direct primary law, amended at the last special session of the Legislature, will be held September 2. The interest in the election centers around the contest of Taft and Roosevelt supporters for control of the party machinery of the State.

Gov. Hiram W. Johnson's political allies contend that if they succeed in nominating Presidential electors pledged to Roosevelt, these will be entitled to the Republican party designation on the ballot in the November election. The Taft adherents take the ground that the action of the Republican convention in nominating President Taft committed the State to the choice of Republican electors pledged to their candidate.

PROHIBITIONISTS OUT. The name of Republican, Democratic and Socialist candidates will appear on the ballot at Tuesday's primary, the Prohibitionist party not being represented on account of its failure to get 3 per cent. of the votes cast at the last State election.

Eighty candidates for the State Assembly and twenty candidates for the Senate will be nominated. These nominees, with the hold-over Senators of each party, will constitute the State convention. All three State conventions will be held in Sacramento, September 24. The Republican party, having fourteen hold-over Senators will have a total of 114 at the State convention; the Democratic party, with hold-overs, 108, and the Socialists 100. The conventions will nominate thirteen Presidential electors each, one from each of the Congressional and Senatorial districts.

Taking into account the victory of the Bull Moose faction at the last State election, the Taft followers are planning to nominate electors by separate petition, after the convention, in the event of the selection of candidates pledged to Roosevelt.

MATTER OF CONTENTION. Whether the Republican party will be entitled to a designation on the ballot which will indicate the pledging of their candidates is still a matter of contention between the two factions. The Taft supporters challenge the right of the State convention, elected by the use of the legally constituted party machinery, to nominate electors pledged to Roosevelt, which any party convention, municipal, county or State, may endorse the candidate of another party for any office.

Alva Udell, a San Francisco attorney, has raised the question of the right of the hold-over Senators to participate in the selection of electoral candidates by filing with the Superior Court a petition for an injunction restraining Secretary of State Jordan from issuing the requisite election forms. He contends that as the electors represented by these Senators will by this method be deprived of any direct participation in the choice of the nominees, the law constitutes, in effect, a violation of the Federal statute governing election. The decision of the court still is pending. Udell is not prominent in State politics and the Taft leaders have shown no indication of joining him in his attack on the election law.

The State primary law provides that the election of judges and school officials shall be non-partisan, and the candidates for these offices will not appear in party groups at Tuesday's election. One-third of the total number of judges in each county will be elected in November, twice that number in the primary. Delegates to the county central committees will be elected Tuesday.

GAINS IN MAINE. House to House Canvass in Cities Indicates Comfortable Majority for Republican Candidates.

(BY A. P. NIGHT WIRE TO THE TIMES.) BANGOR (Me.) Sept. 1.—[Special Dispatch.] Predictions in plenty are being made by leaders on both sides as to the outcome of the Maine election on September 9. Col. Frederick H. Parkhurst of the Republican State Committee announced that careful house to house canvass of Penobscot county shows a Republican majority of 120 to 1500 compared with Democratic majorities ranging from 100 to 1000 two years ago. In Bangor, Col. Parkhurst says there will be a Republican majority of 250 to 300 compared with a Democratic majority of 1100 two years ago. He looks for a victory of Mr. Haines, Republican, for Governor, by a comfortable margin.

BEYOND REFUTATION.

The Times' circulation is not a mere fantasy of the imagination, like that of some of its local contemporaries, but it is a definite, tangible quantity of tremendous power. This fact is responsible for the marvelous result-getting force of The Times' advertising columns.

This journal's prestige and popularity among the masses and the classes attach to and color the trade announcements of its patrons, and invest them with business-holding and business-getting qualities. A large, high-class, responsive circulation such as that enjoyed by The Times cannot be built up in a day, month, or year, but it is the product of painstaking, arduous labor, covering a period of many years.

In the quantity, quality and purchasing power of its circulation, and in the productiveness of its advertising columns to its patrons, The Times has no real competitor.

Advertising space in this paper is used not occasionally, but regularly, year in and year out, by practically every prosperous merchant, broker and tradesman in Los Angeles, as well as by the great majority of "Want" or "Liner" advertisers solely because it is profitable to them, and brings quicker and more satisfactory results than any other form of publicity.

Be not deceived. The Times gives its readers greater value for less money than any other newspaper extant; and no advertising campaign can be conducted in Los Angeles or Southern California at the right proportion of cost to results without using its columns.

CHANCELLER'S CHAMPIONS.

Objection of Divorce Colony to Poultry Keeping Against Ordinance.

(BY DIRECT WIRE TO THE TIMES.) RENO (Nev.) Sept. 1.—[Exclusive Dispatch.] Friends of chancery attended the City Council meeting last night in large numbers to take up the ordinance to abolish crowing of cocks in the early morning hours.

The Nevada Poultry Association was well represented on account of a notice inserted by the president requesting that all members attend if possible.

The members of the association take the stand that to do anything which would discourage the poultry business in Reno would be wrong. They object to the ordinance on the ground that the roosts so close to the top of the chicken-house that the rooster will bump their heads when they stretch their necks to crow. They also object to cutting the throats of the noisy roosters.

STATE CAPITAL DEPOT PLANS.

Condemnation Proceedings Confirm Report that Steps Are Being Taken for Building Union Terminal.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, Sept. 1.—[Exclusive Dispatch.] But brought by the Oakland and Antioch Railway to condemn property at the corner of Third and J streets for a terminal station site, confirms the report to the effect that steps are being taken by representatives of various electric lines for a union terminal close to the Southern Pacific depot.

This project involves the removal of the Sacramento Chinatown from its present location. Chinatown will move several blocks south in the vicinity of Fourth and M near the present Japanese quarter. Several Chinese merchants have already bought property in that locality in anticipation of moving there in the near future.

WOMEN'S CARE AND NURSING.

State Lunacy Commission Will Employ Female Attendants in Asylum at Stockton.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, Sept. 1.—[Exclusive Dispatch.] With the hope of improving the care of some of the patients at the State lunatic hospital, the State Lunacy Commission is to try out a new idea.

It is proposed to put women supervisors in charge of some of the wards of male patients with the theory for this change is that women are naturally better fitted for this work than men and will be more sympathetic and thoughtful much to the patients. It will be tried out first at Stockton, and if successful there, will be adopted at other institutions. It will only be attempted in wards where patients are easily handled.

WILL EAT CALIFORNIA PRUNES.

Northwestern Crop Appears to Be Absolute Failure and Large Raisers Will Not Operate Dryers.

(BY DIRECT WIRE TO THE TIMES.) TACOMA (Wash.) Sept. 1.—[Exclusive Dispatch.] Early summer predictions that there will be virtually no prune crop in Clarke county this year has been verified by most of the large raisers, especially since heavy rains came and caused the fruit to break.

E. L. French, one of the largest prune raisers at Vancouver, who owns sixty acres under cultivation, stated today he would not attempt to pick his crop, nor operate dryers. He said he would give anyone free, all prunes he can pick from his trees. Last year French shipped East thirty-seven carloads. Not a pound of prunes has been sold. Last year Vancouver shipped over a hundred carloads.

Prune crop failure means that Pacific Northwest and Alaska will eat California prunes during the next year.

DR. WILSON TAKES ON FLESH.

Democratic Nominee Gains Seven Pounds Since He Was Nominated by the Baltimore Convention.

(BY A. P. NIGHT WIRE TO THE TIMES.) NEW YORK, Sept. 1.—Dr. Woodrow Wilson found today that he was in the heavyweight class as far as an avoidpools is concerned. The correspondent accompanying him was trying the station scales at Regist, N. J., while the Governor waited for a train early today.

"Weigh yourself, Governor," one of them suggested, and the Democratic candidate stepped on the scales when, to his astonishment, he found he weighed 177 pounds. He said this was a gain of seven pounds since his nomination.

Dr. Wilson and Mrs. Wilson, accompanied by members of his staff, attended the funeral of Hoboken, N. J., of Col. Archibald Alexander, his personal aide, who died Friday of typhoid fever.

The Governor left late tonight for Buffalo, where tomorrow he will deliver two speeches, one at the Labor Day celebration and the other at a citizens' mass meeting. At the latter speech he will discuss, for the first time, phases of the labor question and its relation to governmental control of monopolies.

He will also discuss the third-party platform in this respect.

Survivors of British Ship Wrecked Near Falkland Islands Reach Port Stanley in Lifebloat.

(BY A. P. NIGHT WIRE TO THE TIMES.) SAN FRANCISCO, Sept. 1.—The marine department of the San Francisco Chamber of Commerce received mail advices today of the wreck of the British ship Cricheliet Castle, near Falkland Island in the south Atlantic. Part of her crew is missing.

The vessel which was well known in Pacific waters, was bound from Ballast Island for Falmouth. One of her crew, the first mate, Stanley, Falkland Island, from which the information came, but the other, in command of Chief Officer Dale, had not been heard of.

Capt. R. Thomas, his wife and child and fourteen members of the crew were in the lifeboat, which reached Port Stanley. The ship was abandoned July 15, in latitude 54 south, longitude 51 west, with her rudder and stern post broken.

After a voyage to Port Pirie, the Cricheliet Castle crossed the Pacific to Calico and loaded homeward at Ballast Island June 5.

FIND LETTERS OF MISS MILLER.

The Police Think She Was Potter's Companion.

But Mystery of His Death Remains Unsolved.

No Trace of the Chinese Doctor in Seattle.

(BY DIRECT WIRE TO THE TIMES.) SEATTLE (Wash.) Sept. 1.—[Exclusive Dispatch.] The woman companion of Louis Potter, the famous sculptor, who died mysteriously here Tuesday night, is believed by the police here to have been Miss Martha Miller of Riverside, Cal. The woman has disappeared, but letters found among the effects of Potter indicate that his consort is Miss Miller.

A photo found among his possessions is said to be likeness of the woman. Advice received here today from Riverside says Martha Miller lived there eight years ago. Miss Dolly Garst, State superintendent of schools, says that Miss Miller lived in her home, No. 92 Walnut street, for several months, and that her appearance would tally well with that of the mysterious woman who lived here with Potter.

Miss Garst said even in those days Miss Miller was little known, and was considered "a woman of mystery." She was of literary bent. She taught music for a while, but finally moved to Colorado.

Miss Garst's impression that she had died was dispelled about five years ago by a letter from Potter. Since the death of Potter, the whereabouts of the woman has been known to no one except her physician, Dr. Ronald Strath, and possibly the Coroner. She appeared Friday night at Dr. Strath's office and signified her intention to co-operate with the police in the investigation of the death, and said she hoped the Chinese doctor who was believed to have caused his death, would be apprehended and punished. She then disappeared.

Coroner Snyder says he has seen her with Dr. Strath to his suburban home at American Lake, near Tacoma.

LIVED IN RIVERSIDE MISS MILLER'S CAREER.

(BY DIRECT WIRE TO THE TIMES.) RIVERSIDE (Cal.) Sept. 1.—[Exclusive Dispatch.] Miss Martha Miller, presumed to be the woman who was a companion of Louis Potter, the New York sculptor, whose death Thursday at Seattle is laid to the door of the Chinese physician, lived in Riverside for a time in 1904. She came here from Tennessee. It is thought, from Nashville. During the time she lived here, she taught music and was considered a very capable woman in many ways.

For occupied rooms in the home of Mrs. Dolly Garst, Deputy County Superintendent of Schools at No. 92 Walnut street, Mrs. Garst stated that the woman mentioned in the Times' Seattle dispatch this morning tallies well with that of Miss Miller, as she remembers her, and it is her impression that she did some literary work for a number of years.

Interest in her led to some correspondence after she left Riverside for Colorado, where she hoped to benefit her health, and the word was received at one time that she had died. Later, however, Mrs. Garst received a letter from her, and she has learned, no one here has heard from Miss Miller for nearly five years.

PLENTY OF MONEY. FOUR LETTERS FOUND.

(BY A. P. NIGHT WIRE TO THE TIMES.) SEATTLE, Sept. 1.—Every effort to identify as a literary personage the woman who accompanied Louis Potter, the sculptor, to Seattle, and who was with him when he died in an obscure hotel Thursday, has come to a halt. The woman appears to be amply supplied with funds, and her friends have exerted sufficient influence to protect her name, the Coroner refusing to disclose her whereabouts.

Some friction has developed between the prosecuting attorney's office and the Coroner because the latter delayed ordering the arrest of the Chinese doctor who treated Potter. The prosecutor also advised placing Potter's woman companion under bond, but the Coroner declared that he was convinced this was unnecessary as he had assurance that she will be available if wanted as a witness in searching for the doctor. Potter's effects had been removed last night four letters addressed to Miss Martha Miller, Riverside, Cal., and bearing postmarks of 1903 and 1904 were found in a bureau drawer, but the landlady was unable to say whether these letters belonged to Potter's companion or had been left in the drawer by a previous lodger.

PART OF CREW MISSING.

Survivors of British Ship Wrecked Near Falkland Islands Reach Port Stanley in Lifebloat.

(BY A. P. NIGHT WIRE TO THE TIMES.) SAN FRANCISCO, Sept. 1.—The marine department of the San Francisco Chamber of Commerce received mail advices today of the wreck of the British ship Cricheliet Castle, near Falkland Island in the south Atlantic. Part of her crew is missing.

The vessel which was well known in Pacific waters, was bound from Ballast Island for Falmouth. One of her crew, the first mate, Stanley, Falkland Island, from which the information came, but the other, in command of Chief Officer Dale, had not been heard of.

Capt. R. Thomas, his wife and child and fourteen members of the crew were in the lifeboat, which reached Port Stanley. The ship was abandoned July 15, in latitude 54 south, longitude 51 west, with her rudder and stern post broken.

BESIEGED BY REBELS.

(Continued from First Page.)

has aroused bitter resentment among the soldiers who are eager to get a chance of teaching the lawless Nicaraguans a severe lesson. Two rapid fire field guns and several cases of field ammunition were taken aboard and ported for use by the landing force should a demonstration prove ineffective.

Commander Thomas Washington of the cruiser Denver reports all well between Corinto and Leon. The presence of the landing force under Lieut. Charles W. Crosse has had a reassuring effect, however. Other reports indicate that the natives are exhibiting strong resentment against American troops and will resist any attempt at intervention.

ZELAYA BLAMES AMERICAN INTRIGUE.

(BY DIRECT WIRE TO THE TIMES.) FT. WORTH (Tex.) Sept. 1.—[Exclusive Dispatch.] Alphonso Zelaya, Nicaraguan President, now in exile in Europe, here today on his way back to Central America, declared that American interference in Nicaraguan politics caused the present revolution there. He said the northern American cause the overflow of his father.

The younger Zelaya, says the American fruit companies, when denied fruit concessions by the government, resented the Liberal party foment a rebellion in hope of winning the presidency. He said refusal was given because such concession would make a monopoly and let one or two companies fix price of fruits as they pleased. Zelaya blames the fruit interests for his father's downfall, whom he asserts, managed to escape with about \$1,000,000.

ANTI-AMERICAN SENTIMENT GROWS.

(BY FEDERAL WIRELESS LINE TO THE TIMES.) WASHINGTON BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] Alarming anti-American sentiment is spreading rapidly in Nicaragua as a result of the American can live and property will probably hasten the investigation to be made in Nicaragua and Mexico by sub-committees of the Senate Foreign Relations Committee.

One of the aims of the sub-committee will be to ascertain if there are sinister interests behind the revolutions. Both revolutions have been well planned and it is the theory of a number of Senators and officials of the State Department that the anti-American feeling has been engendered by those supplying the funds.

Members of the sub-committee to visit Mexico are Senators Smith of Michigan, Mitchell of Dakota, Borah of Idaho, Shively of Indiana and Hitchcock of Nebraska.

Preparations are now being made to make the trip within the next few days as conditions in that republic have become worse.

A warship will be placed at the disposal of the Senate investigators who are going to Nicaragua and the Department of State will lend all possible assistance in the way of furnishing information.

Critical.

MEXICAN INSURRECTOS SURROUND AMERICANS.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NOGALES (Ariz.) Sept. 1.—According to advices received here today rebels have surrounded Nogales, where many Americans are located, and the possibility of an attack is imminent. Bridges leading to the east have been burned by the invaders.

An appeal for aid was received by Federal officials today from Mrs. Samuel Wood, Southern Pacific agent at Santa Cruz, for herself and 16-year-old daughter. She said that rebels occupied the town yesterday. Shortly after her message was received the wires were cut.

FRIENDLY ATTITUDE OF PRESIDENT MADERO.

(BY A. P. NIGHT WIRE TO THE TIMES.) SAN FRANCISCO, Sept. 1.—Senator Rafael Hernandez, Mexican Secretary of the Interior, who arrived in San Francisco on a business trip last night gave assurances today of the friendly attitude of the Madero administration to the United States.

"Mexico has awakened to a new realization of its opportunities," said Senator Hernandez, "and it has further realized that its progress must keep pace with that of the United States. Mexico will profit by the Panama Canal."

with 58. In San Antonio, Tex., Kansas City, Omaha, Neb., and Wichita, Kan., the temperature was 54. Cincinnati was up to 52, one degree cooler than Chicago and two degrees cooler than Los Angeles. Phoenix, Ariz., only reported 52, or the same temperature as Des Moines. Detroit shows a maximum of 53 and Green Bay, Wis., a maximum of 52. The Gulf Coast country, temperature of from 50 to 56 prevails. The weather map does not hold out much promise of rain in any direction. Dispatches from country districts tonight say that rains are beginning to fall badly, but that the corn crop is making tremendous strides.

CLOUDBURST CAUSES WRECK. A cloudburst, which railroad officials say was confined to the immediate area of Lombard, Wis., washed out the track of the Chicago and Northwestern Road two miles north of Lombard, causing a wreck in which seven persons were killed and twenty-one injured. A train passing the spot an hour before reported no signs of a storm or damage to the track.

CLOTHES LINE BINDS INVADER.

Girl Finds Intruder in Her Father's Home Fast Asleep in Rocking Chair and Ties Him Down.

(BY FEDERAL WIRELESS LINE TO THE TIMES.) PHILADELPHIA, Sept. 1.—[Special Dispatch.] An intruder too sleepy to carry out his plans in the home of Paul Silvo, at 1542 Kimball street, was ensnared by Silvo's 17-year-old daughter, Mary, and turned over to the police.

The ensnaring was not accomplished by a struggle, but by several yards of unbuttoned clothing, with which the girl bound the intruder who had forced his way through a side door of the home only to fall asleep in a cozy arm chair.

The man, who gave his name as John Edwards, was held without ball by his daughter in the way of furnishing information.

Life's Seamy Side. DEADLY FEUD BETWEEN BOYS.

Hundreds of Children Watch
Fatal Duel.

The Rosenthal Case Inspired
Youthful Slayer.

Rivalry for Maiden's Favor
Leads to Killing.

(By Federal (Wireless) Line to The Times.)
CHICAGO BUREAU OF THE
TIMES, Sept. 1.—[Special Dispatch.]
An amazing story of a deadly feud
between boys for the love of a girl
companion was told to the police, as
providing the motive for the murder
of Solomon Goshph, 14 years old, by
Tony Bruno, 15 years old, in the pre-
sence of 1500 children at the Mc-
Laren playgrounds, Lowell Place and
West Polk street. The children are
helping in search for Bruno.

Detectives working on the case re-
ceived a shock when they uncovered
evidence tending to indicate that the
killing was premeditated with such
care that the alleged murderer had
provided himself with \$100 to flee
to New York.

FOR THE LOVE OF A GIRL.

Rose Marks, known to all the
friends of both boys, is said to be
the girl for whose love they were
rivals. Bruno is said to have told
some of his friends that he got an
idea of what he should do from the
Rosenthal murder, by hired assassins.
"Death is the only proper punish-
ment for a man who does you dirt,"
he is alleged to have said. Then he
went on the trail of his enemy. He
visited the vicinity of Goshph's home
several times and asked Mrs. Goshph
if "Sol" was in. When told that he
was not, he would say: "All right, I'll
come back again."

FROM PISTOL TO BULLET.

Finally he found "Sol." He is-
sued a challenge and started a fist
fight with him. "Sol" was smaller
of stature, but he was game and he
plunged into the hectic fray like a
frenzied sailor.

A crowd of children gathered
around to witness the combat. It dis-
persed with a shudder in a hurry
when Bruno pulled a revolver from
his pocket and fired three shots point
blank at his adversary.

DEADLY SCUFFLE IN CAR.

Seattle Conductor Is Accused of
Shooting Down and Killing Two
Passengers, Father and Son.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SEATTLE, Sept. 1.—Oliver W. San-
ford, aged 30, and his son, Otis, aged
34, were shot and killed at the end of
the Ballard Beach car line last night
by J. T. Tribett, a street car con-
ductor, 24 years old, following a scuffle
on the car between the conductor and
the men.

Tribett is held by the police without
bail. He declined to give any explana-
tion of the shooting.

When the car reached the end of
the line, Sanford, who is a teamster,
and his son, who worked in a grocery
store, were the only passengers. The
motorman, who had stepped down
from the car, heard a scuffle followed
by two shots. The younger Sanford
was found on the rear platform shot
through the back and his father was
found ten feet from the car with a
similar wound.

FAILS TO SEE DAUGHTERS.

Mrs. Dorothy C. Marcus is in Earn-
est About Leaving Her Husband and
Children for Good.

(By Federal (Wireless) Line to The Times.)
NEW YORK BUREAU OF THE
TIMES, Sept. 1.—[Special Dispatch.]
Mrs. Dorothy C. Marcus, who left her
husband and two small daughters be-
cause she felt life with the former
had grown intolerable, is now in New
York City. It is expected she will sail
within the next fortnight for Europe
to join her father, George B. Cooksey.

Mrs. Marcus paid a flying visit to
Montclair yesterday in connection
with the transfer of her residence.
There is no prospect of a reconcilia-
tion with her husband, William Elder
Marcus, Jr., who, it is understood, will
sue for divorce on the ground of dis-
sent at the end of the legal period
of two years.

Mrs. Marcus has not seen her chil-
dren since she left them in July.

WOULD REMOVE OFFICIALS.

Petitions Filed in Kern County
Court Alleging Dereliction of Duty
in Suppressing Vice.

BAKERSFIELD, Sept. 1.—[Ex-
clusive Dispatch.] Following up the
campaign which has been waging
with varying intensity for months for
the suppression of vice in this county,
petitions were filed in the Superior
Court Saturday by B. H. J. Saecker and
R. J. Ballagh, prominent real-estate
men, asking for the removal from of-
fice of Dist. Atty. Rowen Irwin, Sher-
iff T. A. Baker, Constable Sam Fergu-
son of the Sixteenth Judicial Town-
ship, Marshal H. J. Babcock of Mari-
copa and City Attorney L. R. Godard
of Maricopa.

The action is taken under section
772 of the Penal Code, which pro-
vides for the summary removal of
officers proven to be derelict in their
duty, and the petition alleges that
gambling resorts and houses of ill-
fame are conducted openly and no-
toriously in the West Side oil fields,
with the knowledge of the officers
named and against numerous com-
plaints made to these officers by nu-
merous citizens.

The petitioners state that they vi-
sited in person a long list of resorts
that are named in the complaint, and
that the conditions which are de-
scribed in detail unfit for print, were
witnessed by themselves and other
members of a voluntary committee of
citizens. This committee was named
with the approval of Judge Mahon,
who is chiefly responsible for the
latest revival of the reform move-
ment, but when the petitions were
filed the judge declined to issue citi-
tions that he wished to give the accused
officers one more chance to do their
duty.

Yesterday Sheriff Baker issued a
warning to the women who were liv-
ing in the West Side resorts and today
telephone messages say that every dis-
orderly house is closed in all the oil-
field districts.

In explaining the action of the com-

The Drinking Man's Main Object In Life

Is to Always Have a Plentiful Supply
of Liquor on Hand When the
Saloons Close.

The greatest fear in the mind of
the excessive drinker is that he will
not be able to get his regular sup-
ply of liquor and will suffer torture
from the gnawing, nervous craving for
the temporary relief afforded by alco-
hol.

When a man realizes he is in this
condition and that the craving for
drink is stronger than the will power
to resist he should take medical treat-
ment which will remove the desire for
false stimulants.

The regular drinker must have his
drink before breakfast, dinner and sup-
per and before going to bed at night.
If he does not have it he suffers great-
ly and is unfit for business or pleasure.
Contrast this condition with that of
the temperate man who arises in the
morning with a clear brain, healthy
appetite, steady nerves and ability to
do either mental or physical work up
to the limit, feeling comfortable and
satisfied all the time. All drinking
men may be in this healthy, vigorous
condition by spending three days at
the Los Angeles Neal Institute, and
taking the Neal Drink Habit Treat-
ment which is a harmless, vegetable
remedy—painful, dangerous hypo-
dermic injections are never used.

Fifty-three Neal Institutes in the
principal cities of the United States,
Canada and Australia are annually
changing thousands of drink craving
men into sober, healthy, capable men
—perfect masters of themselves.

For further information call at the Los
Angeles Neal Institute, 141 South Olive
Street, or write or phone G. U. Neal, Man-
ager, for Dr. Neal's Free Book, "Pleasant
Broadway 4692; A 4972.

mittes of citizens in filing the peti-
tions. Ballagh said that the closing
of the resorts at this time is not in
good faith and that so soon as the
matter is allowed to quiet down they
will be opened again. The officers
have had plenty of warning, he de-
clared. The filing of the suits gains
added interest in connection with a
bitter fight which is waging in the
primary campaign. None of the offi-
cers accused are candidates at this
election, but most of them are asso-
ciated with the Democratic organiza-
tion that has practically monopolized
the county offices for years.

Supervisor H. Jastro, the re-
cognized head of the Democracy in
Kern county, is a candidate for the
Democratic nomination for his pre-
sent office and is opposed by J. A.
Waltman, commonly known in the
county as "Windy" Waltman. Wal-
man is making nightly speeches from
an automobile denouncing the Demo-
cratic ring and quoting extracts
from a report of a grand jury, which
in 1895 indicted several members of
the alleged ring. In addition, Wal-
man, who was a resident of the de-
sert mining districts many years ago
and has some reputation as a gun
fighter, is incidentally accusing a score
of other prominent citizens of offenses
ranging from petty graft to cattle
stealing. While no connection seems
to exist between Waltman and the
citizens' committee, their coincident
attacks on the county officials have
heightened the local political situation to
a high pitch.

HAYES TO THE FRONT.

Assures Santa Barbara That Addi-
tional Funds for Federal Building
Will Be Secured—News Briefs.

(BY DIRECT WIRE TO THE TIMES.)
SANTA BARBARA, Sept. 1.—[Ex-
clusive Dispatch.] That work on San-
ta Barbara's proposed Federal build-
ing will be started within a few
weeks was the gratifying announce-
ment made here today by officers of
the Chamber of Commerce. The
statement was following the receipt of
a telegram from Congressman E. A.
Hayes, to Postmaster D. F. Hunt. The
telegram follows:

"I look up with the supervising
architect in Washington, the matter
of awarding the contract for the
Santa Barbara public building, and
now have his promise that he will
award the contract within a few days
on a satisfactory basis. I will pro-
cure the necessary additional appro-
priation so that no change need be
made in the original plan."

Nearly a year ago, \$110,000 was ap-
propriated for the building, and bids
were advertised for. The lowest bid-
der asked \$118,000 for the job. Two
more times bids were advertised for
and each time all bids were above
the appropriation. Congressman
Hayes, who is a candidate for renom-
ination, was apprised of the situa-
tion and wishes of the business men
of Santa Barbara, and he promised
to put forth his best efforts to have
the contract awarded with the as-
surance that the deficiency would be
made up at the next session of Con-
gress. He was successful in his en-
deavor, and there is great rejoicing
here as the Federal building will be
one of Santa Barbara's most attrac-
tive buildings.

AUTO STRUCK BY TRAIN.

Redlands Man Attempts to Cross
Southern Pacific Tracks and Suf-
fers Serious Injuries—News Briefs.

(BY DIRECT WIRE TO THE TIMES.)
REDLANDS, Sept. 1.—[Exclusive
Dispatch.] C. E. Davis, secretary and
manager of the Redlands Fruit Asso-
ciation, affiliated with Exchange in
marketing oranges, was injured this
morning at Puente when the auto
which he was driving, was struck by
a Southern Pacific train. It is re-
ported he was not seriously hurt, al-
though bruised considerably. No bones
were broken and he was able to tell
the trainmen who he was, and where
he came from. Mrs. Davis was not
injured, but suffers from shock and
excitement.

A month ago Mr. and Mrs. Davis
left Redlands for a tour to San Fran-
cisco, and other northern cities, and
were on their way home when the
accident occurred. Both were taken
to Pomona, on the Golden State Lin-
e, for treatment at the hospital.
J. S. Edwards and H. W. Seager,
business associates of Dr. Davis, left
by auto at noon for Pomona, to ren-
der whatever assistance possible. F.
S. Day, secretary to the injured man,
also went down. It was at first the
intention to bring both Mr. and Mrs.
Davis to their home here, and Frank
Stutt and Dr. W. P. Burke went to
Redlands Junction to fetch them
home, but it was thought best to leave
them at Pomona.

\$500.00 Piano.

The second prize in The Times Booklover's
Contest is a \$500.00 piano, with a player at-
tachment. This is a beautiful instrument, and
would be an ornament in any home. If you
cannot play the piano yourself, the player at-
tachment will furnish you all the latest and
best music.

How to Tell if Your Hair is Diseased.
Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent. of the people need a hair tonic.
Pull a hair out of your head; if the bulb at the end of the root is white and shrunken it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full the hair is healthy.
We want everyone whose hair requires treatment to try Rexall "33" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.
It is because of what Rexall "33" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and \$1.00. Sold only at our stores, The Owl Drug Co., Inc., Los Angeles, San Francisco, Oakland, Sacramento, Portland, Seattle and Spokane.

WAS A MOMENTOUS EVENT.

Pomona's Struggle for the Honor of Taking Ride on First Electric Car to Metropolis.
POMONA, Sept. 1.—The momentous event in local history today was the opening of the regular interurban car service of the Pacific Electric system between Los Angeles and Pomona.
Promptly at 8:30 o'clock this morning the initial big three-car train left the main station of the company at the corner of Third street and Garey avenue, the cars being well filled with Pomonans anxious to claim the honor of having ridden to Los Angeles on the first electric cars into the city.
There has been a scramble for tickets and E. C. Bichowsky has the distinction of having purchased ticket No. 1. To Charles Schwab, assistant postmaster, went the second and to Charles Bayer the third. A good-sized crowd was on hand when Superintendent Annable gave the signal for starting the service from here.
There were three "flyers" out from here at 8:30, 7:30 and 8:00 o'clock a.m. The first car from Los Angeles left that city at 8:45 o'clock a.m., and rolled down Garey avenue into Pomona at 7:05 o'clock a.m. All day the cars have done a good business and it augurs well for the future. A high official of the Pacific Electric said today that the company wished it understood here that it was its desire to create friendly relations with Pomona, which it recognizes as one of the coming communities of the Southwest, and it is its purpose to help make this city a greater center for trade.

WILEY ROASTS THIRD-TERMER.

Says Roosevelt Is Gay Deceiver to the Public.

Pure Food Law Not His Hobby Until Enacted.

Claims Credit Where Credit Is Due to Others.

By Federal (Wireless) Line to The Times.
WASHINGTON BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] That Theodore Roosevelt, when President, did everything in his power to nullify the pure food law for the passage of which he is now claiming credit, was the definite charge made by Dr. Harvey W. Wiley, former chief of the Bureau of Chemistry in an interview with the correspondent, in which facts and dates were given to show that the Bull Moose candidate was deceiving the public.
CHARACTERISTIC.
"Mr. Roosevelt," said Dr. Wiley, "has repeatedly claimed credit for the enactment and enforcement of the food and drug act of June 30, 1906—the pure food law, so-called. I have a letter of his under date of August 2, 1912, in which he states that with the assistance of Mr. Garfield, 'then Secretary of the Interior,' and others the law was forced through Congress. Roosevelt further says, 'I forced the law through Congress; I enforced it well.'"
ANARCHISM.
"Now, the fact is, nobody ever heard of Mr. Garfield's connection with the passage of the food and drug act. For that act became law June 30, 1906. Garfield became Secretary of the Interior, March 4, 1907. "Still further Mr. Roosevelt did not support the bill until he became aware that a tremendous public sentiment existed in its favor. Then he took it up, as a popular move and as soon as it became operative, and offended food adulterators, he cut the strength out of the law by appointing the Remsen board.
"The Remsen board completely emasculated the pure food and drug law, just as it was intended it should. It was appointed for the sole purpose of rendering ineffective the law, and it did its work nobly.
"I was brought up a Republican and my father was originally an Abolitionist, and a conductor on the underground railway. I shall do all in my power to aid in the defeat of the Bull Moose ticket."

Lux Orientalis.

LIGHT FROM THE EAST ON THE LIVING ISSUES.

[BY FEDERAL (WIRELESS) LINE TO THE TIMES.]

NEW YORK BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] The following editorial comments on topics of the hour are printed in eastern papers.

MR. TAFT'S VETOES.

PRESIDENT WITH BACKBONE.
[New York Tribune, Sept. 1.] President Taft was on the firmest possible ground when he defended his use of the veto power in his speech at the Ohio Columbus centennial celebration. No more frivolous attack can be made upon an American President than to accuse him of unduly asserting his will to nullify the will of Congress. The people want to have a President who will act for them in legislation as a check on the majority in Congress. He represents the popular will more directly and effectively than Congress does, for Congress is only the composite voice of several hundred constituencies, each electing separately, while the President is the spokesman of the nation acting in its entirety. The constitution makes him the most important single factor in legislation and it is a superficial view which seeks to challenge the propriety or expediency of his interposing a veto on the work of Congress whenever he sees fit to do so.

DIRECT AND FORCIBLE.

THE DIRECT PRIMARY.
[New York Times, Sept. 1.] All praise to the people of South Carolina. They have heard the complaint that the direct primary is a failure, since in most of the States of which that nostrum has been tried only a small part of the voters have taken the trouble to express their choice for candidates. In Kansas the other day

less than half the voters took part in the primaries. It was different in South Carolina. There they were determined to make a record, so, in the primary, the number of votes cast in some counties exceeded the total number of voters.

There is talk about fraud, of course, and the stuffing ballot boxes and what hear that 30,000 illegal votes were cast. That is nonsense. The size of the vote is explained by the resolve of the people to show that the direct primary is a howling success.

MORGAN WON.

A QUESTION OF COST.

[New York World, Sept. 1.] All of the great financial powers invested large sums of money in 1904 to buy the friendship of the Roosevelt administration. J. P. Morgan won; Harriman and the Standard Oil Company lost.

No definite information has ever been obtained as to the total amount of the amount bid.

This much is certain. The Morgan interests "which have been so friendly to us" were lavish in lavishing the Roosevelt campaign and the Morganites were always protected by Roosevelt administration which too them into partnerships with the United States government.

EVERYBODY'S DOING IT.

POPULARITY OF TURKEY TROT.

[New York Times, Aug. 30.] A hopeless flight, the leader of the band in one of our fashionable hotels who went to Europe to get a little rest and escape the prevalent "Turkey trot" has our deepest sympathy. He found the trot had preceded him. The prosperous dance with its syncopated music is as popular in Paris, Vienna and Berlin as it was in New York last winter. "Everybody's Doing It" is the favored tune on the ocean steamers. Popular dance music is more infecting than the measles and travels more quickly. What did our band leader expect. He plays the kind of music himself. Let him beg his reformation at home.

THE MICHIGAN DRIFT.

BACK TO MR. TAFT.

[Philadelphia Press, Aug. 30] Michigan two years ago turned down the veteran Republican leader, Julius C. Burrows, and sent to the Senate the more "progressive" Charles J. Townsend. By last spring the Progressive fever seemed to have faded off considerably and two-thirds of the delegates chosen to the Republican national convention from Michigan were for Taft. At the primary election just held to nominate a Governor the Progressive candidate received only 7 per cent of the Republican strength. Apparently the Progressive tidal wave had dwindled to a mere ripple in Michigan.

Is this purely local or is it symptom of a wider change? When Vermon has spoken and Maine on the Monday following, the indications will be more positive but will still fall short of showing clearly what will be the verdict of these states which will vote for Presidential electors next November.

If You Want to Go East G. Haydon.

PHILADELPHIA, Pa., Sept. 1.—W. W. SIXER. "BUREAU'S Dry Gin—Demand it in your richer, Martin, etc."

Follow the Crowd.

Devote your spare time to solving the great problems of the Times Bookstore's Quiz and win a valuable prize.

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is usually a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

This image shows a dark, vertical strip with a heavily textured and aged appearance. It resembles the cover of an old book or a piece of weathered material. The surface is uneven, with various shades of dark brown and black, and shows signs of wear, including scratches and discoloration. The texture is rough and fibrous, suggesting a material like leather or heavy paper. There are no discernible patterns or text on the strip.

SWIFT GLIMPSE JAILS A BRIDE.

Lightning Look Spoils Three-Thousand-Mile Romance.

Transcontinental Runaway's Ended by an Eye.

Pretty Miss Locked Up, but Where's Groom-to-Be?

A runaway romance that spanned the continent only to be thwarted by a lightning glimpse of the bride-to-be from the window of a swiftly-moving street car, wound up last night in the County Jail yesterday, for, though the young lady is in jail, the prospective groom has not yet been located by the officers in search of him.

The arrest of the girl, Miss Lulu Breger, 16 years old, of Monaca, Pa., supplied a startling example of training in police methods on the part of Mrs. Althea Gilbert, police-woman attached to the Juvenile Bureau at the Central Station. With nothing more than the previous inspection of a photograph and a brief description to aid her, Mrs. Gilbert, riding past in a street car, instantly recognized the girl in a group of casual pedestrians on the sidewalk. The next day, by an apparently random search of rooming-houses in that vicinity, Mrs. Gilbert found the young lady's place of residence.

WHERE IS HE?

The arrest of Miss Breger was made late Saturday afternoon. The police are anxious to locate the man in the case, Percy Van Horn, 28 years old, No. 1621 Central avenue. There is no complaint against him, but the exact status of the affair is under a matter of great interest to the girl's father, 3000 miles away. She is held pending word from him.

In his letter to the police asking them to locate his daughter, the father wrote: "If they are married, and produce a marriage certificate I am satisfied. If married wish them a happy day and tell her to write home to her mother."

About a year ago Van Horn visited Rochester, Pa., where he met and fell in love with Miss Breger. When he returned to Los Angeles he asked her to join him. She consented, and he sent her \$30 out of his savings. Telling her father that she was going to visit her grandparents, Miss Breger came to this city.

The romance, however, did not reach its appointed culmination at once. Miss Breger suggested the wisdom of waiting until young Van Horn should be able to buy a nest of his own and in the interim he found a boarding place for her across the street from his own place of residence.

About the time Miss Breger reached Los Angeles the father ascertained where she had gone, and communicated with the police. In his letter he enclosed a photograph. This was turned over to Mrs. Gilbert.

ARREST AT A GLANCE.

Friday afternoon Mrs. Gilbert, while passing South Sixteenth street on a Central avenue car, caught a fleeting glimpse of the girl on the sidewalk and instantly recognized her.

It was impossible for Mrs. Gilbert to return then and arrest her, but the next day she made a canvass of the rooming-houses in that vicinity. After a search of about two hours, Miss Breger herself responded to the bell at a house on Central avenue between Sixteenth and Seventeenth streets.

"How do you do, Lulu?" said Mrs. Gilbert, smiling at her. "I have been looking for you for some time. Your father wants you."

The girl admitted her identity and accompanied Mrs. Gilbert to the Central Station, where she was booked as a runaway. Her father, who is a merchant at Monaca, has been notified by wire of his daughter's arrest.

Van Horn, so the juvenile officers say, has dropped out of sight. A man who refused to give his name called at the Central Station yesterday to see Miss Breger, but his request was denied. The officers think he was sent by Van Horn.

Wanted.

RESISTS, SHOT THROUGH BODY.

RAVE STOREKEEPER PAYS HEAVILY FOR COURAGE.

Bandits Hold Him Up on Way Home; He Disobeys Order to Hold Up His Hands and Is Probably Fatally Wounded—Both Highwaymen Make Their Escape.

Joe Willard, storekeeper for the Simons Brick Company, may pay with his life for his refusal to obey the commands of two highwaymen early yesterday morning. They ordered him to hold up his hands, one of them holding a large revolver against his body. When Willard resisted, the armed man fired. The bullet entered the storekeeper's body, high in the shoulder, and, ranging downward, came to rest in the muscles of the back. It was found by means of an X-ray examination held at the Crocker-street Hospital.

Willard told the officers that while returning to his room in the rear of the store, which is at the brick plant on the East Side, he was stopped by two men. They intercepted him on Stephenson avenue, within sight of the brick yards.

"I didn't think they'd shoot," said Willard. "Having a large sum of money on my person, I decided to resist. I struck at both of them at the same time, knocking one down. When

Miss Lulu Breger, sixteen-year-old bride-to-be whose 3000-mile runaway romance was thwarted and herself landed in jail by a remarkable feat on the part of a policewoman.

I struck the other in the face he fled.

The shot aroused people living in the vicinity, and they found Willard lying in the road where the bandits had left him. The two men escaped.

SOMETHING IN A NAME.

Prisoner Adopts Wife's Maiden Cognomen; Wiley Searches, Finds Husband in Jail on Burglary Charge.

An unsuspecting wife, when she called at the Central Station yesterday to make inquiries relative to her missing husband, inadvertently solved the mystery surrounding the identity of a young man, giving the name of E. D. Watts, held on a first degree burglary charge. He proves to be H. D. Callen and the detectives say he has a police record. In an effort to keep his identity from the authorities Callen assumed the maiden name and initials of his wife.

Callen was discovered early Friday morning hiding behind a counter in F. J. Trullinger's cigar store, Main and Pine streets, by Oscar Feeling of the Merchants' Dispatch. He told the detectives that he had been down town playing pool, and hid because he did not want to be seen going home so early in the morning.

When Mrs. Callen called at the Central Station yesterday and gave a description of her missing husband, the officers instantly identified him. He is being held for preliminary examination on Thursday.

Flickering.

LIFE'S SPARK SINKING LOW.

FRANCIS MURPHY'S SON AND SUCCESSOR NEAR END.

Mantle of Militant Exponent of Temperance, Worn With Honor for Five Years by Lecturer's Follower, Passing in Turn to the Third Generation of Workers.

William J. Murphy, son of the late Francis J. Murphy, and who, since the latter's death five years ago, has carried on his battle in the cause of temperance, is slowly sinking at the family home, No. 1332 West Fortieth place, where he said last night his death may be expected at any moment.

After the death of Francis Murphy the mantle naturally fell upon the son, and a little less than five years ago he came to Los Angeles to continue the work in this city. He became president of the Francis Murphy Association of Los Angeles, the burden of which was passed in turn to his son, Thomas C. Murphy, when the elder Murphy died the similarity has added much to the popularity and usefulness of the son.

He is a native of Louisville, St. Lawrence county, New York, and was educated at the Chester Military Academy, Chester, Pa., and the Pennington Seminary. In 1881, he married Miss Clara McCay, whom he met during his schoolboy days.

Four children of this union are living, Albin, Thomas C. Francis and Lillian, all of this city. Two sisters also live here, Mrs. Wayland Trask, and Mrs. Frances Josephine Holmes. A brother, Thomas Edward, lives in Overbrook, Pa.; another brother, John Francis, St. Louis. A third, Robert S., who was Lieutenant-Governor of Pennsylvania, died very suddenly last June.

Murphy has been ill for nearly a year, and during the past few weeks has gradually lost strength until the end seems near. This he viewed with equanimity, his last conscious expression symbolizing the "beauty of the kingdom."

First National Officer.

LEADING VAN OF VETERANS.

Quartermaster-General of the Grand Army Arrives.

Heads Distinguished Party of Eastern Visitors.

Predicts Encampment Will Be One of Greatest.

Enthusiastic over the prospects for what he declared will be one of the most important national encampments which the Grand Army of the Republic has ever held, Quartermaster-General Col. D. R. Stowits, heading a party of seven persons, arrived in Los Angeles at 4:30 o'clock yesterday afternoon over the Salt Lake Route. He went immediately to the Alexandria to take up the duties of preparation for the arrival of his superior officer, Commander-in-Chief Harvey M. Trimble.

In the party with Quartermaster-General Stowits were Past Senior Vice-Commander Alfred Lyth and Mrs. Lyth; Representative James F. Flynn, one of the delegates from New York to the encampment; and Mrs. Flynn; Miss Philippina M. Schoeman, National President of the Daughters of Veterans; Miss Mary McEvoy, National Secretary of the same organization; and Mrs. Boyer of Buffalo.

The party was met at the station by Chairman Sidney A. Butler of the General Committee and Executive Director Osborne. They had traveled all the way from Buffalo and, worn out by the trip, all at once sought quarters reserved for them at the hotel.

With the arrival of the first national officer and his party local speculation immediately became rife as to the probable successor to the high office of Commander-in-Chief of the Grand Army. According to advance reports now current the man most likely to succeed Commander-in-Chief Trimble is Past Junior Vice-Commander Albert B. Beers of Bridgeport, Ct. Capt. H. Z. Osborne, president of the Los Angeles Chamber of Commerce, is receiving strong support for Senior Vice-Commander and his friends declare confidently that he will be elected.

ARE ENTHUSIASTIC.

"Los Angeles is one of the greatest cities in the world for a gathering of this kind," said the Quartermaster-General. "While this will probably be the last gathering of the G. A. R. in the West, I want to say that it will be one of the most important ever held and it is fitting that it be held in such a beautiful spot."

"The soldiers of our army are growing old and they cannot travel now in trains even the distances they used to travel on foot when they were fighting to preserve the union. The average age of our members is about 70 years and many of them are feeble. Our next encampment must be held somewhere in the East."

"Does Past Junior Vice-Commander Beers appear to be in any sense a general choice for the position as head of the G. A. R.?" was asked.

The Quartermaster-General smiled and replied diplomatically: "Beers is well known and well liked throughout the ranks. Many wise judges say he will be elected to a certainty."

"And will Executive Director Osborne be elected to the second post of honor?"

"Personally, I am one of his supporters and believe he should be elected," was the answer.

The question of incorporation of the Grand Army is to be one of the important questions decided by the delegates to the encampment. Just what will be done in the matter no one in authority is prepared to say. It is claimed that many of the early officers of the organization are in favor of incorporation, but that the rank and file are conversant with all phases of the question and their voting attitude is therefore doubtful according to Quartermaster-General Stowits.

The Grand Army has lost 14,000 members by death in the past year. The strength of the order is now about half of what it was in 1890, when it was at its zenith, with 425,000 members. The official arriving from the East yesterday declared that at least 25,000 members and their immediate followers would be in Los Angeles during the coming encampment. This does not include the host of visitors of all sorts who will gather in the city on special days. These will run into tens and even hundreds of thousands.

OPENING NIGHT.

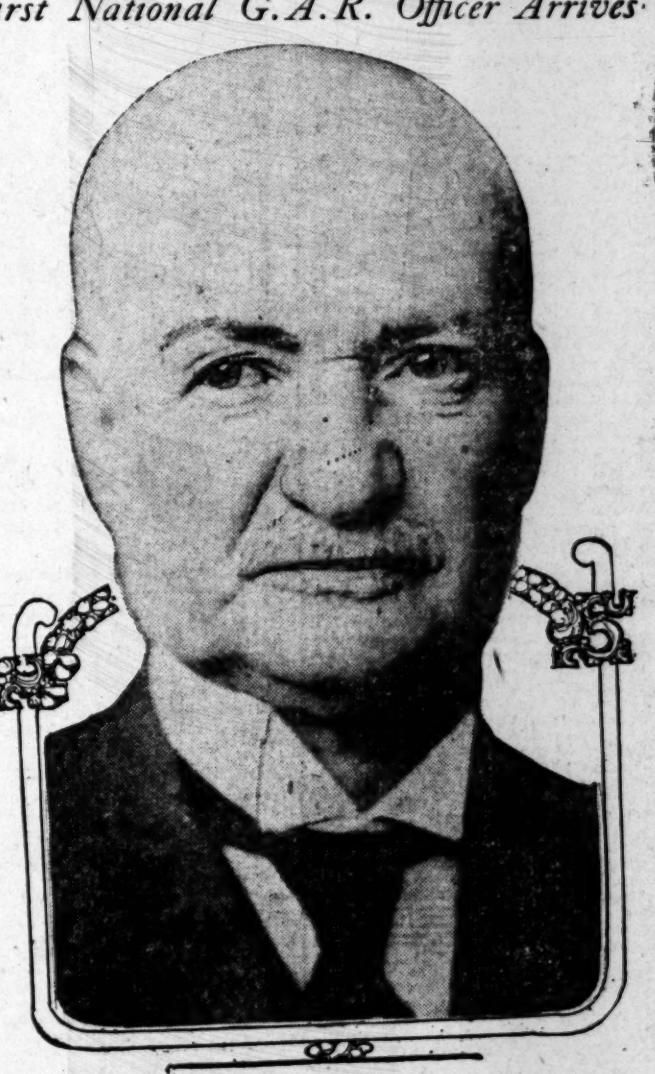

Announcement was made yesterday of the programme for the formal opening night at the Shrine Auditorium Tuesday evening of next week.

Among the speakers will be many prominent officials of the G. A. R. and others. Lieut.-Gov. A. J. Wallace and Mayor Alexander will make addresses to the veterans to the city.

Commander-in-Chief Trimble will then assume control of the encampment at the hands of Director Osborne, and will deliver an address to his assembled comrades. Others who will speak are: Col. W. R. Thomas, Commander of the Department of California and Nevada; Corn. M. Devlin, National President of the Woman's Relief Corps, and Mrs. Catherine Ross, National President of the Ladies of the Grand Army of the Republic, will speak.

Louis Wagner, Senior Past Commander-in-Chief, will respond to the greetings, as will also James Tanner, Commander-in-Chief, and Gen. John C. Black of Chicago, also a Past Commander-in-Chief. The latter will be followed by Philippina M. Schoeman, President of the National Alliance, Daughters of Veterans. Past Commander-in-Chief Leo Rasmussen will respond to the greeting.

The programme will close with an address by Col. C. S. Scott, commander of the division of California and Pacific of the Sons of Veterans, and a response by Past Commander-in-Chief Samuel R. Van Sant.

Quartermaster-General Cola D. R. Stowits, of the Grand Army of the Republic, who arrived in the city yesterday from Buffalo to arrange final details for the reception of Commander-in-Chief Trimble and for the general programme of the national encampment here next week.

SPITTING JUGGERNAUTS LEAVE TRAIL OF DEATH.

Two men were probably fatally injured, another seriously and five more considerably bruised in five motorcycle accidents involving nine men and six machines yesterday. Those for whom the police surgeons entertain but slight hopes for recovery are William Milton, address and occupation unknown, and W. S. Allen, 45 years old, a mail collector of No. 2067 Brighton avenue. Of the others the most seriously hurt is W. E. Hill, a newspaper route man 25 years old and residing at No. 529 West Forty-seventh street.

Milton rode headfirst into a Pacific Electric car on Crenshaw boulevard. At the Receiving Hospital it was found he had received a fractured skull and a broken left leg. He was unconscious when picked up and did not sufficiently regain his senses during the day to enable him to give an account of himself. His name was found in a letter in a coat pocket, but no address.

Allen sustained his injuries in front of No. 1400 West Jefferson street, when he ran into the rear of the tandem machine ridden by E. W. Wor-

den, No. 1532 East Forty-fifth street, and Carl Rose, No. 5014 Central avenue. Allen did not see the motorcycle in front of him until too late to avoid the collision. Worde and Rose were only slightly injured. Both motorcycles were badly damaged.

Besides possibly fatal internal injuries, Allen sustained an inch cut above the right eye, a two-inch laceration on the upper lip extending into the mouth, loss of two upper teeth and a bruised chin.

The front axle of Hill's machine broke near the corner of Vernon and Vermont streets. He was found lying unconscious in the street at 5:20 o'clock and taken to the Receiving Hospital with concussion of the brain and abrasions of the forehead, nose, chin, lower lip and right knee.

Charles Hansen, 18 years old, a professional chauffeur, No. 750 Bishop street, ran into an unidentified man at Fourth and San Pedro streets. Hansen was badly shaken up. The other man walked away without giving his name.

Joseph Bennett, 59 years old, a San Diego blacksmith, was knocked down on Main near Third street by a machine ridden by H. E. Callahan, No. 232 North Avenue Twenty. Bennett suffered a number of cuts and bruises and a dislocated finger.

Christendom's Tribute.

CHURCHMEN BOW HEADS IN MEMORY OF BOOTH.

LOS ANGELES laid its tribute of rosemary yesterday upon the bier of the late Gen. William Booth, founder, commander, prophet, and inspiration of the Salvation Army of the world.

The main service of the day was held at the First Methodist Church, preceded by a parade and presided over by Mayor Alexander. The chief addresses were delivered by Dean MacCormack of St. Paul's Pro-Cathedral, Dr. Locke, pastor of the church giving shelter to the assembly; Arthur Letts, for the business men, and Col. Miles, representing the army.

It was memorial day for the great Christian warrior, and all over the land Christian people gathered to do honor to the man who has been referred to as "the greatest since John Wesley."

The parade formed at army headquarters in Wilmington street, and marched to First street, to Broadway, where it crossed Sixth street and the church. A squad of mounted police led the march, which moved to the funeral strains of the combined army bands of the local corps. The women wore the white sash of mourning and the men an armband of the same material, for in the army death is not looked upon as an event of sorrow, but as a promotion.

It is this dominant note of cheerfulness which stood out most strongly throughout the long service.

The keynote of the eloquent verbal tributes to the "promoted" general was struck by Dean MacCormack in his scriptural quotation as applied to the departed leader. There was a man sent from God.

"The days of the miracle have not passed," said the dean, "for the Salvation Army is the greatest miracle of the present time. The secret of Gen. Booth's wonderful success lies, I think, in the fact that he never met a human being without asking the question, 'how about your own soul?'"

"Just as Cecil Rhodes laid his hand over the map of South Africa and said, 'all this for England,' so 'Gen.

Booth laid his over the map of the world and said, 'all this for Him who is King of Kings, and Lord of Lords,' and great man fallen this day leaves behind him a consciousness of man where we believe it ought to be."

A GREAT MAN FALLEN.

"Know ye not that there is a prince and great man fallen this day?" asked an eloquent, hallooing-stirring address devoted largely to a review of the life and works of the leader.

"When the careers of many rich and notorious in our age shall have become lost in oblivion the name of William Booth will be shining with increased luster," he said.

"When a certain rather conspicuous Englishman was asked what he thought of the Salvation Army, he replied: 'I do not like it at all, but I believe that God Almighty does.' The Savior's own test when applied to the Salvation Army, 'by their fruits ye shall know them,' vindicated the divine origin of one of the most fruitful enterprises for the reformation of the vicious and forgotten classes."

"The friend and defender of the outcast men and women, and like his Lord, he severely rebuked those who were so eager to cast stones upon those whom a corrupt social condition has ruined. He was courageous to the point of audacity; he was persistent to the point of invincibility."

"He saw how every man has a right to work, a right to eat, and a right to sleep; he discovered that if you want to keep the craving for drink out of a man, it will substantially help to fill his stomach with wholesome food, and rest his body in a clean bed, and increase his self-respect by getting him a job to work."

"He once sent a message of New Year's greetings to his army throughout the world. It was composed of one word, 'others.' God ever and always bless the Salvation Army! It is the church in the saddle; it is the cavalry of the world."

In Eighty Minutes.

ELECTRIC LINK
WELDS CITIES.First Car to Pomona Carries
Enthusiastic Crowd.Hundreds Travel Over Brand
New Trolley Line.Girls Miss Beauty Sleep to Be
Its Christeners.

A big, broad-shouldered motorman tested the air-brakes with a practiced hand, the conductor gave a sharp pull of the bell after thirty passengers had climbed aboard and at exactly 5:35 o'clock to the dot, yesterday morning, the first regular interurban car between Pomona and Los Angeles moved out of the Pacific Electric depot. From then the last car of the night, several hundred people made the trip.

The big car cut through a territory at rapid speed and when the end of the trip was reached a population of roughly 35,000 had been added to Los Angeles. This came about through the establishment of rapid suburban service between the towns scattered along the route from here to Pomona. That the car service will be a great benefit to local business men is foregone, as it taps a rich territory and will bring many shoppers into the city every day.

Two of the most pleased passengers on the first car were Miss Charlotte Soldini and Miss Sybil Mather of the information bureau of the Pacific Electric. The young women went without their "beauty sleep" yesterday morning so that they could be among the first passengers carried over the new line.

"It was simply great, the ride," exclaimed Miss Soldini, "and I am nearly starved. We only snatched a cup of coffee before leaving Los Angeles and the country air proved so bracing that we can hardly wait to get home to eat Sunday dinner. A confirmed dyspeptic could eat a stein of French fries potatoes and all the other things that goes with a good dinner after taking that trip."

The schedule running time of the cars from here to Pomona is one hour and twenty minutes. However the first car took nearly two hours and thirty minutes to make the trip because of delays met with at railroad crossings and because the equipment did not work as smoothly as it will after the service has been well established.

One of the benefits that will accrue as a result of the new interurban line will be appreciated by fishermen and hunters. It is possible to make a trolley trip from Los Angeles to the mouth of the San Antonio Canyon, where the cars connect with stages for Camp Peck. From the "camp" a trail leads to the summit of the big mountain peak.

The Pomona cars will leave regularly from the Pacific Electric depot each day at 5:35, 6:45, 8:35, 9:30, 10:50, a.m.; 12:40, 2:00, 3:30, 5:05, 6:40, 8:10, 9:40, 11:10, p.m. The new line opens up to Los Angeles the territory east of Pomona, embracing Ontario, Upland and San Antonio Heights as well as Claremont and Pomona.

Officials of the company said yesterday that the hour and twenty-minute schedule from here to Pomona would be easy to maintain and that the cars that left at 2:00, 3:30 and 5:05 p.m. are designated as "fliers" and will cut this schedule considerably.

VISITOR DIES SUDDENLY.

Sad End of Visit of Mother-in-Law of Orville Overall of Chicago to Her Daughter.

Mrs. Margaret Elizabeth Hinson of Chicago, mother-in-law of Orville Overall of Los Angeles, died at 6 o'clock last night at the Columbia Hospital, following a brief illness.

Mrs. Hinson came to Los Angeles from Chicago three weeks ago to visit her daughter, Mrs. Overall of No. 1710 West Sixth street. She contracted a cold which steadily grew worse. It was not until Saturday night that her condition gave uneasiness. Physicians, who attended her, said that the cold had become a pneumonia, which she had been suffering for years.

Mrs. Hinson was 63 years old and was the widow of James A. Hinson, a well-known Chicago manufacturer, who died a few years ago. She lived at No. 414 Broadway, Chicago. The funeral arrangements have not been completed, but the services will probably be held Wednesday. Mrs. Hinson leaves three daughters, all of whom are now in Los Angeles. She will be buried here.

LONGS FOR OUR FREEDOM.

Austrian Enraptured With What He Sees in This Country. Hates to Be Called Back.

"You are really free here in America," said Anton Dangel, lieutenant of the automobile corps of the Austrian army, who, with his family, registered at the Alexandria last night. "In Austria we are not allowed to hunt and fish at will. We must have a passport whenever we move about, and I do not think our people are as happy as yours."

Johann Dangel, father of the young officer, who heads the party, is a wealthy merchant of Vienna. With him are Mrs. Dangel and Miss Paula Dangel. They are making a three months' circle tour of America. They arrived yesterday from Santa Barbara, after short stays at San Francisco and Del Monte.

Young Dangel has still eight years to serve in the Austrian army. His corps is attached to the general staff of the Emperor and is made up of young blades from the best families of the country. When asked whether the death of Franz Josef would unsettle Austria politically, he said:

"We do not know what to expect. Our country is made up of twenty nationalities, and it has taken a powerful personality to hold them together. When the Emperor was ill last year there was a marked conservatism in business at once. As for our military discipline, it is so strict that I may be called upon at any time to return to Vienna if there is need of me. I looked with anxiety for a recall in San Francisco, but luckily I am spared to see your attractive southern country."

Salvation Army Parade Entering First Methodist Church.

Where memorial services were held yesterday afternoon for the late Gen. Booth, simultaneously with approximately 6000 others of like character in most of the cities on the globe.

CHURCHMEN BOW HEADS.

(Continued from First Page.)

alry of the hosts of the Most Holy. "God said to William Booth what he said to Moses: 'Come now and I will send thee that thou mayest bring forth my people' and the other day, because he had walked with God, God took him, because He liked him."

Col. Charles Miller, editor of the army at large, who has traveled the globe and penetrated its dark places, who knew Gen. Booth intimately, told in a more personal way of the tender ruggedness of his chief.

"The salvationist's idea of death," he said, "is not one of sorrow but rather the balancing of life's account; the ending of an eventful journey, a promenade."

"The brotherhood of man is exemplified in a striking manner in the Salvation Army. Gen. Booth believed in the redemption of man, not by the multitude, but by the individual. A man of tenderness, a man of faith; all honor to the greatest Christian warrior who ever lived and whose last words breathed into the ear of his devoted son, our new leader were: 'His promises, they will not fail if we but believe.'"

After an invocation by Mrs. Col. Miller, Staff Capt. Clifford introduced the Mayor, who spoke briefly. "Gen. Booth," he declared, "is the greatest philanthropist of modern times, and the world is and will be better because he has lived in it."

Gen. Booth's appreciation of the business man's appreciation of the life of Gen. Booth, and the work of the Salvation Army. He did not wait for men to come to him, but he went to them, high-ways and by-ways after them, just as the business man does not wait for customers to come to him, but he goes after them. "In conclusion," the speaker read a scripture lesson: "I have fought a good fight, but he could not be present and appreciation for the life of Gen. Booth was read from Rev. S. H. Hinchey, who was introduced by the four pastors of local churches, similarly expressed themselves.

After the last communications from Gen. Booth, the last communications from America were read by Maj. Dart. In it the general breathed the spirit which he breathed into the life of the army, straight; live holy and blameless lives. We must overcome America, we must overcome the world, we must overcome the world for Christ. Farewell. Meet me in heaven."

Several hymns were sung and solos given. Envy Marjorie, McGowan and Capt. McKenzie, Maj. Dart concluded the service with a prayer, and the band played "Hail to the Chief."

Other memorial services were held in the Y.M.C.A., where Staff-Capt. Sly Hinchey, the principal address on "A Memorial Service to the late Gen. Booth," was given by Rev. H. H. Hinchey.

At the First Methodist Church and Dean MacCormick performed a similar service at the Pro-Cathedral. At Trinity M. E. Church, South, Rev. Howell spoke on the life of Gen. Booth, while at several other churches, the same took occasion to discuss the great throughout the city the evening service was memorial in character.

SEVEN UNCERTAIN DOCTORS.

Shipment of Dead Body Is Delayed at Hanford on Account of an Uncertain Diagnosis.

HANFORD, Sept. 1.—(Exclusive Dispatch.) Shipment of the remains of Norman Allen, 4-year-old son of C. H. Allen of Corcoran, has been delayed pending an investigation, as Dr. Frederick Cuttle has announced that the child died of infantile paralysis, while seven other physicians are uncertain about the diagnosis.

The boy was brought to Hanford and was supposed to be ill with typhoid fever. Dr. Cuttle pronounced the illness infantile paralysis. The boy died a few hours later. Seven other doctors were summoned, but refused to diagnose the case as infantile paralysis, but admitted death was due to spinal complaint.

County Physician Ralph Dangel has refused to allow the body shipped until the death certificate is signed. In case Dr. Cuttle is correct, the body will not be taken out of the county.

Nears Consumption.

SALE OF GREAT SANTA YNEZ IS FORESHADOWED.

DISPATCHES from Santa Barbara last night indicated that the negotiations for the sale of the Santa Ynez ranch to a syndicate of eastern capitalists are progressing to a climax. The ranch, which consists of about 10,000 acres and half the townsite of Santa Ynez, belongs to Bishop Conaty of the diocese of Monterey and Los Angeles. The bishop stated last night that the matter is pending but that the negotiations had reached no definite conclusion.

There is also considerable concomitant activity in real estate throughout the Santa Ynez Valley, the Santa Rosa ranch having been sold recently. Options are being sought on other large tracts adjoining and some land in Santa Maria Valley has recently changed hands.

The value of the Santa Ynez ranch and townsite is reported to be in the vicinity of \$1,000,000. In connection with the pending deal in Santa Barbara it is stated that if the sale is consummated a large amount of money will be expended in the development of the property. The reported plans include an extensive colonization scheme, the erection of a hotel and other buildings at Santa Ynez townsite and the extension of the railroad.

There are rumors which have been persistent is that the Coast line of the Southern Pacific Railroad may be changed to run through the Santa Maria and Santa Ynez Valleys, thence through the tunnel under the Refugio pass to the coast and down to Santa Barbara.

SAND EXCITES
MUCH INTEREST.Experts Say It Indicates
Proximity of Oil.Bradley Well May Strike at
Shallow Depth.Tehusquet Operations At-
tract Attention.

(Special Correspondence of the Times.)

SANTA MARIA, Aug. 25.—During the early part of last week, the Bradley Canyon Oil Company, operating on the Muscoy tract near Fugler's point, was engaged in operations which caused much comment and speculation among the local oil men. The sand is not an oil sand in any strict sense of the word, but according to the opinion of some experts, it is the presager of the productive stratum.

A. W. Daugherty, president of the Santa Maria Oilfields Limited Oil Company, has examined the "grit" closely and pronounced it identical with a sand which is encountered on the Palmer leases at a depth of about 2500 feet, and which lies immediately over a rich productive stratum in that region. Such being the case, the present indications shown by the Bradley Canyon well mean much to the oil industry of the Santa Maria field.

Shallow territory is the oil man's paradise, and the Bradley Canyon well is now only at 1260 feet, with a casing casing. Operators on the well report that an extremely heavy gas pressure exists, and are hopeful that the pay streak is not far away. With regard to this well it will be remembered that a six-inch oil well was encountered some five months ago at 475 feet. The oil showed a flow of 14 gravity. Baume, but was not found in commercial quantity.

About three miles to the east of the Bradley Canyon well, the Summit Oil Company is operating in the pumping of the water for a test of the hole. This well has met with many difficulties, but has been greatly hampered by casing around it. Only recently the hole was cemented off at the 2500-foot level, to overcome an influx of bottom water. The job has apparently been successful and a test will at once be made.

At the time the drill was at 2550 feet on the six-inch casing, the well less several miles to the north of proven territory the result of the operations is being closely watched.

Still farther to the north and east, the Princess Company is pursuing its well No. 2 on the Tehusquet tract. Superintendent McCann reports that the well is going along nicely with success. The present formation is gray shale. On the neighboring Ontiveros tract the hole has been drilled to a depth of 2600 feet, and the prospect of getting oil seemed good. Heavy expense, and the strain upon the strings had become too strong. The checkered work has been replenished, however, and if they succeed in drilling a mile deep it will be necessary in order to make a thorough test. Superintendent McCann, who has been in charge of drilling operations, and who has so far drilled a remarkably good hole, is back on the job and determined to reach the pay streak.

Oil men in general, hereabouts, are anxious to see just how these two Tehusquet wells will turn out. If either strikes oil it is pretty certain that new development will begin in that region. A good many seem inclined to try now, but it costs money to get oil and most of them prefer to let the other fellow do the pioneering.

The Cat Canyon Oil Company is another wild-cat project which has so far proven unsatisfactory, but which is to take on a new lease of life. This company was organized two years ago to operate on the McCroskey tract in the eastern Cat Canyon district. Somehow things have never gone just right with the company, and the drill never got below the 1000-foot mark.

With peevish stockholders, flood-mined roads, and casing troubles as a climax, the directors of the company have had worries in plenty. So the well has remained shut down for some time. The company is now to be reorganized upon a firm financial basis and the well will then be pushed ahead to completion.

The Santa Maria Oilfields Limited Oil Company seems to have a fine well in its No. 7, which is now producing about 80 barrels a day of 18 gravity oil. Wells Nos. 2 and 3 and the old Los Alamos Petroleum are yielding well, and the company is looking for a big thing. The high oil will be stored upon the lease awaiting a rise in the price of oil, as the Englewood Petroleum Company's directorate are not at all anxious to sell their oil at the present prevailing rates.

A Failure.
FRENCH OLD-AGE PENSION ACT.
MAJORITY OF PEOPLE EVI-
DENTLY DO NOT WANT IT.

Government Has Extended the Period of Registration, but Those Who Would Be Benefitted Are Still Averse to Complying With Its Provisions.

[Chicago Inter Ocean.] The French old-age pensions act of 1910 represents the first experiment with obligatory insurance in France. The scheme resembles Mr. Lloyd George's sickness insurance act inasmuch as it is compulsory and contributory. By the terms of the act, the state assumes all employed men and women whose age was less than 65 years on July 1st last year, the last day on which the act was in force, were to be forced to insure themselves for a period of 14 years, or 16 if a man, and the women at 52, a year or 54 if a month, children under 18 years of age, or 20 if a month.

An equal amount is paid by the employer, and, under the original provision of the act, the state contribution was fixed at 16, a year, or 17 if a month, and the women at 52, a year or 54 if a month, children under 18 years of age, or 20 if a month.

tion did not have the desired effect. Within the last few days the Chamber has had to prolong still further this time of grace till January 1, 1913. Mr. Cheron, reporter of the Budget Committee in asking the Chamber to extend the time limit, pathetically explained that "despite the publicity given to the scheme by the government, and despite the daily increasing numbers of adherents," the advantages of the measure "did not seem to be sufficiently well known to all parties interested. Comment would only lessen the force of the confessions of failure which has been in force for two years."

A READ HAUNTED HOUSE.
A Massachusetts Clergyman Is Forced to Leave His Parish Residence Because of Uncanny Doings.

[Chicago Record-Herald.] Rev. Father Charles F. Donohue of the Church of the Sacred Heart of South Hanover, Mass., is an exile today from his own parish house, and dares not set foot within its threshold. The reason is—ghosts! Big, lusty, strong-armed men with a predilection for breaking furniture, and smashing up crockery and glassware. For two weeks the uncanny visitors played havoc with Father Donohue's household, and his housekeeper, Miss O'Connell, went on strike and positively refused to stay any longer.

Father Donohue tried to weather it alone, and to defy the occult intruders, but they wouldn't be defied and now he, too, has left the parish house to its fate.

"A strange phenomenon," was the way Father Donohue described it. "I cannot attempt to explain it. For two weeks and longer the strangest things have been going on in the house. I realize how the story sounds, but it is true, nevertheless, that I have seen pieces of furniture heaved to the floor and broken with no possible explanation at hand. It is all very mystifying."

"Why, just a few nights ago I was compelled to sleep on a cot just outside the room where Miss O'Connell and Mrs. A. E. Hoban and his daughter were sleeping, because they had been terrified by their furniture being thrown about the room in the dead of night. I had placed my alarm clock on the stand near by and barely crept into bed when the clock was hurled across the room so violently it was broken. It stopped at 2:05 a.m."

"We all went to downstairs rooms to finish the night. The next morning we found the beds upstairs torn apart and the bedclothes torn and ripped."

Chamberlain's Colic, Cholera and Diarrhoea Remedy is just what its name implies. For pains in the stomach and cramp colic it has no superior.—L.A.S.

Notice to Parents.
School begins September 3. See pages 4 and 7, Part I, for "before school" notices.

The Workingman
and the Telephone

THE working man who Has a Bell Telephone in his home greatly increases his chances for work.

Men who hire workmen usually have telephones. The man who can be reached on the Telephone gets the first chance.

The Bell Telephone with its Local and Long Distance Connections, opens the door of opportunity.

The Pacific Telephone
and Telegraph Company

FOR 28 YEARS YOU HAVE watched the wonderful growth of the Wessendanger Realty and Building Business. You see the big buildings all over town. The business became too big for one man. It is now the Conservative Investment Company, with property worth \$1,400,000, with an income from rents of \$140,000. Every shareholder a friend, a booster, a contributor to greater growth and prosperity means more extensive operations, larger profits. TWELVE PER CENT, a year on par with the rate of dividend declared by the Conservative Investment Co., payable Aug. 28. You can buy shares now at 32 1/2. Shares advance to 35c after Sept. 5. Think of it, of what it means to you. Learn no time. Send your order now, before you forget it, to the Conservative Investment Company, 408 West Sixth St., Office, Main 2045. "Watch Conservative shares grow." Call or write today for free booklet.

Government Has Extended the Period of Registration, but Those Who Would Be Benefitted Are Still Averse to Complying With Its Provisions.

[Chicago Inter Ocean.] The French old-age pensions act of 1910 represents the first experiment with obligatory insurance in France. The scheme resembles Mr. Lloyd George's sickness insurance act inasmuch as it is compulsory and contributory. By the terms of the act, the state assumes all employed men and women whose age was less than 65 years on July 1st last year, the last day on which the act was in force, were to be forced to insure themselves for a period of 14 years, or 16 if a man, and the women at 52, a year or 54 if a month, children under 18 years of age, or 20 if a month.

An equal amount is paid by the employer, and, under the original provision of the act, the state contribution was fixed at 16, a year, or 17 if a month, and the women at 52, a year or 54 if a month, children under 18 years of age, or 20 if a month.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is just what its name implies. For pains in the stomach and cramp colic it has no superior.—L.A.S.

Pen Points: By the Stars

Great distress reported at Manila. Nothing to eat but food.

Speaking of the political bull in the china shop, there is Gov. West of Colorado.

"I am the naked issue," trumpets Roosevelt. So he is, but send him home a barrel.

A lone bandit, in robbing a chauffeur this city, displayed very little professional courtesy.

Gen. Orozco. It is now reported, he seized Gen. Rabago. Pasquale is a Caesar.

Suggestion for the bands in the Moose party parades this fall: "The Perishing."

Wonder if Angel Perkins's money financing the campaign tour of H. H. Woodrow Wilson is elected.

Ormsby McHarg has quit the Roosevelt camp and will support President "Everybody's doing it."

Century plants at Long Beach are bloom. They will flower again—Woodrow Wilson is elected.

What has become of the old-fashioned woman who kept the parlor door open a brick covered with a piece of carpet?

The fantastic gyrations of Col. Roosevelt remind us of all the world of the star performances of Desperate Dan.

Champ Clark has been presented with a clean shell by an appreciative audience friend. But will champ take the shell?

Up to the present time it has not been demonstrated whether Nick Longworth will be compelled to retire from the party for the family.

A civil service examination will be held by the government for an xylotomist. You can guess what that is wrap it up and take it home.

If the government should authorize a mintage of those 3-cent pieces there would always be some people wanting two of them for 5 cents.

A berry of Milwaukee doctors insist on dissolving a blot on civilization—a rumor that perhaps only applies to the kind of food out in Milwaukee.

The spectacle of Editor Earl standing in armageddon fighting for the Lord would bring tears to the eyes of the most case-hardened sinner.

In that third-party movement both public and the private purse will be much alike. So far the first is not in evidence to any great extent.

The cruiser California is at Corinto and her name is any pledge of excellence service the interests of American residents in Nicaragua will be safeguarded.

Col. Roosevelt some time ago returned "the calamity" of his nomination. He people will see to it that the "calamity" be no further by electing Taft.

If Col. Roosevelt will just stick around while he will hear something interesting when Maine and Vermont vote for Senators and members of Congress.

Ranchers are complaining of the high cost of harvesting machinery. Is it possible that Geo. W. Perkins is trying to pocket his campaign expenses already?

It is announced that food prices have reached the highest point in the history of the country. Can't charge that on the tariff laws enacted by a Republican administration.

Miss May Sutton, the tennis champion, returned from a three months' play in the East and is covered with titles as a hero of the Franco-Prussian war medals.

Gov. Johnson says he will not resign his job as he expects to return to the senate in November. We always think that H. W. Perkins is a sense gifted with a spirit of prophecy.

The London College of Physicians is the discovery of a new anesthetic, more powerful than any heretofore known. Somebody has been experimenting with it on the Roosevelt party, evidently.

The trusts do not own me," shrieks Roosevelt in his Vermont yaps. According to the best of evidence, the standard Oil crowd put up \$125,000 of money in 1904, and was prosecuted accordingly had refused to be shaken down for \$100,000 more.

The widow of Henry H. Rogers, the oil magnate, died suddenly in New York yesterday, and as the telegraph says, "the end of her journey." So death came to us all when we have reached the end of the allotted years. "At the end of the journey!" What more appropriate from which to pass beyond?

SILENCE.

The warden of the seals of sleep in the shepherds of the restless hours that stray like lambs along a tranquil country way, are vigil that the lonely keep; cities where the desert sands sleep; angels man once sang, prayers that he used to pray.

It is tomorrow, mine is yesterday, stars that beckon and the mist that creep.

I am like the singer and the song, the ancient sphinx that guards the middle I.

Those that triumph upward from the deep creative powers, to me belong, ha, Omega, in my bosom lie the keys in my keeping have I hidden God.—Edith Willis Linn, in the Century.

Scion of Steppes; Son of Southland.

Scion of Steppes; Son of Southland.

Keeper Calhoun and Little Nicholas.

The latter is a ten-pound, snow-white Russian deer, the most recent arrival at the Griffith Park Zoo. Though an aristocrat of the first water, the little deer finds much to his liking in his picturesque surroundings.

acting not at all as one would expect to see a former well-known actor of the legitimate stage. However, he has the satisfaction of knowing that his energy and perseverance have brought his company from comparative oblivion into the limelight of a world-wide popularity.

In the picture mentioned above it can readily be seen how his personality dominates each scene in which he takes part, and how admirably suited he is to the Wild West style of photodrama.

At the majestic this afternoon, at the special matinee, Miss Marguerite Clark will be seen in her creation of the chief role of "Baby Mine." Mr. Glendinning returns as the young husband, and Mr. Bliss will be seen in the part Walter Jones played last year. This is Miss Clark's first local appearance, if I am not mistaken.

Also this afternoon, Thomas MacLearie will essay the part of John Ganton, at the Belasco. George Fawcett, the original, will play this part in London today.

The Alaskan-Siberian pictures, which were an actual and established success at the Mason two weeks ago, will be resumed for a short time today.

New vaudeville programmes at the Orpheum, Empress, Pantages and Mosier theatres.

BRAND NEW BABY DEER.

Young Russian Deer Arrives at Griffith Park to Boss the Herd as on Native Steppes.

Keeper Calhoun of the Griffith Park Zoo is very proud of a recent addition to his family of deer. This time the arrival is a Russian deer, pure white, about ten pounds big, and an aristocrat of the steppes; a regular young Car.

This is the second Russian deer born at the park. The other one came a year ago, and likes Los Angeles first rate. The zoo is growing constantly in interest and the animals are removed from Eastlake to their new home in Griffith Park visitors will find a trip there worth while—it is now as a matter of fact, if only to see Nicholas, the new deer.

Another interesting family which is attracting much attention is that of a trio of nightingales. (Keeper Calhoun knows how to pronounce it.) These are also of the deer family, native of Asia, and weigh about 10 pounds each.

IN HONOR OF STETSON.

By way of commemorating the start of John B. Stetson's \$8,000,000 hat business, Silverwood's are now making a notable window display in the hat manufacturing business, showing how the raw hides and raw silks are made into headgear. The display also illustrates the history of the hat-making process, attributed to an English monk, who, for some petty offense, was made to walk from London to Stockport with dried peas in his shoes. Being a wise monk, he put soft wool over the peas and the walking made a kind of crude felt of it.

CHARITY OF WORKERS.

VISALIA, Aug. 31.—Spirit of charity among the workers in the canning establishments of this city was vividly shown here when Mrs. Augusta Brauch, a fruit cutter at one of the plants, was run down by a truck in the factory and suffered a broken ankle. While the injured woman was being taken to her home the man who had run the truck into her caused the accident started a subscription and in a very few moments he had approximately \$30 in cash. The cash raised will pay Mrs. Brauch's bills for surgical attendance.

DINUBA ASSETS.

DINUBA, Sept. 1.—According to figures which have been compiled with extreme care and which, it is claimed, are absolutely accurate, the Dinuba district includes nearly 9000 acres of grapes in full bearing, to say nothing of the citrus acreage and the Turkish tobacco, and other activities of this district. Figures on the grape area shows the following as the vineyards given over to the various varieties: Muscats, 3552; Malaga, 870; Sultan, 1295; Faleragosa, 118; other varieties not listed, in small acreages to total \$466 acres. There has been a large increase in vineyard planting this year in consequence of the prospect of complete success of the exchange work.

Notice to Parents.

School begins September 10. Pages 6 and 7, Part I, for "before school" notice.

Enrollment Not Necessary.

RED CROSS' WORK AMONG JAPANESE.

SOCIETY THERE ONE OF RICH-EST IN THE WORLD.

Has Made a Remarkable Record in China During Boxer Troubles and in Its Own War With Russia. Also Contributed to Relief Distress in San Francisco.

[New York Sun:] The Red Cross Society of Japan is not only one of the biggest, but it is also one of the best-organized of the world. It has a membership of more than 1,500,000, its property is estimated to be worth \$150,000,000, and its annual income is \$1,000,000.

Well known, too, is that the society found it possible to render really remarkable service in the relief of the ill and wounded of the opposing Russo-Japanese wars. With the increase of its power and influence in those times, it immediately began to extend its activities to relief work of an international nature.

During the Boxer troubles in North China, its hospital ships and reserve hospitals took care of the ill and wounded of the Chinese forces, and it easily won the approbation of its powers for the excellence of its work. In China, it sent relief corps to Hankow, China, and attended to 5000 of the ill and wounded.

It has organized an effective Red Cross organization in China, the work done by the Japanese earned the genuine appreciation of the Chinese people. At the time of the San Francisco earthquake it contributed 400,000 yen (\$200,000) to the relief fund. It also sent relief corps to Italy, 41,000 lire, (\$105,000).

The most remarkable feature of the activities of the Red Cross Society of Japan, however, is undoubtedly in its relief work in time of peace. It has local stations or sections all over the world, and each of these enormous amount of relief work in time of stress and trouble. In a way this is keeping up the efficiency of the society's medical staff and nurses for the more serious business of war.

During the past five years the society gave disaster relief in 130 cases, and treated in all, 69,956 patients. With the increase of accidents, due to the progress of industries and communications, the importance of such relief work becomes more and more apparent. The great emphasis as to the importance of such work has been brought to the attention of the world by the gift of \$10,000 by the Empress of Japan to the Red Cross Society, the income from which is to be devoted to relief work in time of peace.

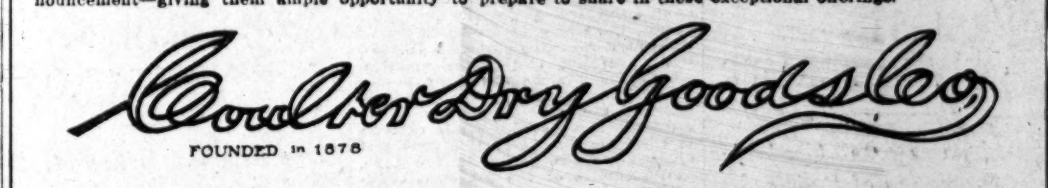

The first to recognize the true value of the medical officer in time of war—that his place was at the front of an army, to prevent disease, as well as at the rear, to cure it. They completely reversed the usual statistics and instead of losing ten men from disease to one from battle casualties, they lost three from battle casualties to one from disease. Thus creating a record heretofore unheard of in the annals of war.

Long before hostilities began they established the most magnificent Red Cross Society the world has ever seen, which today numbers nearly 2,000,000 members, and has an endowment fund of \$7,000,000. They organized a medical corps which taught the world that disease, thus creating a record heretofore unheard of in the annals of war.

They had as an auxiliary to this corps no less than 44,000 sanitary soldiers, who carried out the most important sanitary measures that would prevent disease. Such assistants are un-

CLOSED All Day Today: 'Labor' Day

—and Tomorrow!—well, Tomorrow we've planned so many very irresistible events that we thought perhaps our out-of-town patrons would appreciate this day-before announcement—giving them ample opportunity to prepare to share in these exceptional offerings.

Note These Special Events Scheduled for Tomorrow:

- these are merely a few—to give you an idea of the quality of merchandise to be presented Tomorrow—and at what unusually reasonable pricings!—
- The earlier—the better, Tomorrow:
- Untrimmed Hat Shapes to \$5 at \$1; to \$10 at \$2!
- New Charmeuse, Bengaline and Serge Dresses at \$22.50.
- All Misses' and Children's Lingerie Frocks at Half!
- Tucked Long Silk Gloves, the \$2 Qualities for \$1.50.
- Embroidered Long Silk Gloves, Regularly \$3, for \$2.
- Summer Purses and Fabric Bags, Worth \$1—Specially 50c.
- Genuine Leather Bags, Usually \$1.50 and \$1.75, at \$1.
- Sale Wash Tailored Belts, Worth 50c, for 25c each.
- All 5c Toilet Soaps Underpriced to 3 for 10c Tomorrow!
- All Odd Pattern Table-cloths Unusually Underpriced!
- Hemstitched Tea Napkins, Worth \$4 Dozen, at \$3.85.
- Auto Robes and Steamer Rugs are Considerably Reduced.
- And Displays showing the Newest in Silks and Woolens.
- Fashion's Early Conceits in Millinery Needs.
- Suitings to See—that Tailor to your Order for \$45 Up.

AND dozens as interesting items—not advertised—await your shopping visit tomorrow.

PRESCRIPTIONS

known in our army. They sent their men ahead with scouts to examine the water supplies and establish stations for boiling it, so the advancing columns would not be exposed to diseases contracted through its impurities, to all of which, says a writer in the Oriental Review, I can testify from personal observation.

They taught their officers that to operate on the field of battle, except where death was imminent from hemorrhage, was a crime, because such operation could not be performed under aseptic conditions; they taught their army the value of cleanliness; every soldier had his bath almost daily and on the eve of battle the soldier bathed with special care and put on fresh underwear.

In the event of his being wounded a first-aid dressing was immediately applied by himself if his injury was a minor one, or by his companion if it were more serious. Every soldier was thoroughly trained in the application of these dressings, and as a result a very large proportion of the wounded never needed a dressing removed until their wounds, which were aseptic, were healed and they were able to return to the front and join their colors.

INSURANCE OF AVIATORS.

Foreign Companies Have Made the Venture, but Have Found It Hard to Make It a Profitable Line.

[Chicago Record Herald:] The underwriting of aerial risks has been carried on in a tentative way and as a side line by several German life and accident insurance companies for years or more. The results of experience to date appear not to have been altogether encouraging to these companies, and all are now carefully circumscribing the scope of their operations.

Conditions attending insurance against liability for damages arising from injury to persons and property has been made highly restrictive; the rates for the insurance of aeronauts (those who go up in lighter than air craft) have recently been increased; the insurance of aviators (those who go up in heavier than air craft) against death seems to have been abandoned altogether, and the number of aerial policies of any kind which are now being written is said to be very small.

One of the companies which had earlier ventured into insurance of aviators against death recently paid a \$10,000 claim arising from such a policy, and in addition a considerable amount to cover the loss on the aeroplane, which was destroyed.

A Swiss insurance company which does an accident business in Germany, including automobile insurance, etc., has recently abandoned altogether the insurance of airmen and air craft. During the two years in which it experimented in the field of aerial insurance it wrote about 100 policies, charged an annual premium of \$110 for a \$2500 policy, and the same premium for accident insurance, giving a daily remuneration of \$2.40 during invalidity.

Although these rates were increased later, the company found the business unprofitable. A Cologne company, one of the pioneers in the field, has abandoned the writing of aerial policies. None of the local companies will now quote rates for the insurance of aviators against death. The rates for policy paying aviators are \$2.38 for a \$233 policy and \$4.76 for a policy yielding a daily remuneration of 24 cents a day during invalidity.

The rates for the insurance of aviators against liability for damages arising from injury to other persons range from \$25.75 for a policy yielding a maximum of \$5950 when one person is injured or \$17,850 when more than one is injured, to \$47.60 for a maximum of \$23,800 for one or \$71,400 for more than one person injured. The rate for insurance against liability for damages to property is 30 per cent of the value of the policy when damages from fire or explosion are not included and 30 per cent.

WITH THE CONTEST TOOLS GO ALL PICTURES TO DATE FREE.

Want to Start in the \$8500 Bookovers' Game?—This Is the Way.

Now is the story of the Bookovers' contest, and how to enter it now to the best advantage.

The contest simply consists of a series of seventy-seven pictures, each of which was drawn expressly to represent the title of a book. The pictures appear one by one in the Times. The contestants cut them out and send them to the contest office. Those most successful in naming the seventy-seven titles will be awarded the prize fund in another part of today's Times.

The seventy-seven titles which the contest pictures were drawn to represent were selected from a list of 6500 book titles. This list is in the contest catalogue, and it is in demand by contestants, in which everyone is striving. The catalogue is sold for 35 cents, or 40 cents by mail.

There are two methods of submitting your answers in the Bookovers' Contest. First, you can simply send the pictures and coupons as you receive them from the Times, writing your answers on a separate card, and enclosing it with the pictures and coupon. You are allowed to make as many pictures as you desire. So you need not limit yourself to one picture to each picture. If you make more than one picture to each picture, you must secure eight copies of picture No. 27, and submit each

answer on a separate picture and coupon.

Or, second, you may adopt the Answer Book plan of submitting replies. By using an Answer Book you can make as many as ten different answers to each picture, yet you need only one copy of each picture. The matter how many answers you make in all—all you need is just the seventy-seven pictures as you get them from the Times. You paste one copy of each picture in the Answer Book, and beneath each picture write the answer or answers you desire to make to it. There is no necessity for getting more than one copy of a picture if you have an Answer Book.

Answer Books cost 70 cents, or 75 cents by mail.

With each catalogue you get seven certificates which are redeemable free, for the first thirty-five contest pictures.

With each Answer Book you get six certificates more. They are redeemable free for the pictures from No. 36 to No. 70, inclusive, providing you sign the three-month subscription blank below.

Thus, in getting the catalogue and the Answer Book you get seventy-seven pictures free, and have the complete contest equipment!

Take advantage of this and jump into this game of solving pictures. Get your share of the \$8500 prizes—the \$800 cash, or one of the other dazzling awards, may mean your start in life!

The Seraphs yesterday achieved something that is believed to be without precedent in the history of baseball. Twice they moved into first place, only to wind up the day where they started it, in second place. And mind you, all these important transactions took place within the short space of a little more than four hours. I guess you will be safe in hanging up a new world's record for the Seraphs. And while about it, hang up another right beside it for the Vernon Tigers, who were twice knocked out of first place, only to fight their way back each time. Sunset saw them still on top, breathing hard but licking their chops victoriously, and happy.

That the Seraphs did not stay in first place, at least over night, is no fault of theirs. They did everything that their contract calls for. They put the twin crushers on the Senators, maccinating them, 5 to 2, in the day-break brawl, and made a honest day's work of it by whipping them, 4 to 0, in the afternoon.

Having disposed of this, I will attempt to let you in on how the Seraphs shot into first place and shot right out again. The morning victory, which was achieved by 12:15 o'clock, enabled them to pass the Tigers, who were standing still because Sunday morning games are unknown in Portland.

But with two afternoon games to be reeled off in Portland, the Tigers and Beavers got an early start. The first game, which was won by the Tigers, was finished a full half-hour before the Seraphs had registered their afternoon victory over the Senators. This put the Tigers back in the league for half an hour, or until the game was finished. With the game over here, the Seraphs were themselves back in the lead, having passed the Tigers a second time. When they walked from the field they were occupying first place, but they dropped back into second place almost before they had left the shower bath. The second game in Portland was already well under way, and by the time the Tigers again wrested the lead from the Seraphs, it was this same pennant race!

RECORD FOR CHECH.
Charley Chech carved out his ninth consecutive victory in the afternoon, surpassing all pitching records in the Coast League for the current season. Thus it will be seen that when it is large, it was a lucrative day for Los Angeles.

Arellanes did not display this old-

Rivers's Most Dangerous Fight.

tomary skill in the post-meridian pastime, and with Chech closer than the bark on a tree, it was like taking candy from a "chee-id." But two Senators reached third, and Jimmy Shinn was both of them. Jimmy jogged to that point in the first inning and again in the third. The first time he was stopped too far, and was picked off by Walter Boles, educated arm. The second time he simply stuck because there was no one to send a helping hand.

In the second sonata, Arellanes pitched himself into a deserted well and then pitched himself out again. Singles by Heitmueller and Dillon, and a walk by Metzger, populated the pads. With three men to be floored, the Senior was wabbed by the brow with the back of his glove and proceeded to pitch all the ball that he knows. Lober flicked out a long foul, which Lewis transfixed after a long run. Boles, a bad man in a pinch, poled the ball down to Orr only to see that young man grab it and hand it back up to the plate for the forced retirement of Heitmueller. Thus encouraged, Arellanes let out about two more links, and nonplussed Chech.

SERAPHS SCARE.
But a pitcher cannot keep on getting into holes with impunity, and when Page planted one of Arellanes's early offerings in the third, near an understrapper's sign in left field, even his own relatives hardly dared hope that he would be able to pull himself out even with the assistance of his friends. They guessed good. Barger sacrificed, and Page deposited tally No. 1, while Orr and Miller were embayed by Driscoll at first. Dillon started the second, install-

(Continued on Second Page.)

BEAVERS DROP TWO GAMES TO HAP HOGAN'S TIGERS.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND, Sept. 1.—[Exclusive Dispatch.] Vernon lost the leadership of the Pacific Coast League for a few hours today, Los Angeles jumping to the front by virtue of a morning conquest over the lowly Senators, but Hogan's men were not to be denied and resumed their position at the top by taking both games of a double-header from the Beavers in the afternoon. Scores, 4-8 and 9-0.

Vernon was out-hit two to one in the first game, but the five hits gleaned off of Harkness, combined with two errors, proved sufficient to overcome the eighth inning Beaver rally.

The second game was yielded to the leaders with scarce an effort on the part of the second divisioners. Southpaw Raleigh held the Beavers to four hits, while thirteen healthy smashes, coupled with four errors, gave Vernon an average of one score for every inning, the edge on the series, three games to two, and saved the percentage column standing.

More than 5000 fans howled themselves hoarse during the two hours and ten minutes of the first game. The affair was replete with sensational plays, with the eighth inning batting rally, when Portland scored three runs, the culmination of the excitement.

ERRORS BEAT BEAVERS.
That swiftest would have been sufficient to win the game and plant Ver-

non in second place, but for costly errors by Bancroft and Kibbie. In the sixth Bancroft muffed up Roy Brashear's grounder, and a sacrifice and Litchi's two-sacker, scored the second walk. In the eighth, following a sack and a sacrifice, Kibbie booted Litchi's grounder, and with McDonnell out of the way, Agnew's single to left, scored two more runs.

In the first game Vernon took a one-run lead in the first inning when Kane walked, went to second on Bayless's out, to third on a pass and home on Ray Brashear's single to center.

Brackenridge seemed due for a shut-out victory. He walked the eighth inning, but he was driven to cover during the bombardment of that period and was succeeded first by Stewart and then by Carson. Butcher, the first man up, grounded out, but Rodgers hit for two sacks. Fisher was out on a grounder to Kibbie Brashear, but Kibbie walked. Doane was sent in to bat for Harkness and scored runners with a single to left. Chadbourne smashed the ball at Brockbridge and all were safe before the sphere was recovered. Rapps was ejected as a pinch hitter for Bancroft and responded with a slashing drive to left, scoring Kibbie and Doane.

Stewart was then introduced to the howling mob. He walked. Fitzgerald in rapid-fire order and gave Krueger two bad ones when Hogan, the smile trained from his features, called for Carson. Soldier lobbed the first one over and Krueger, too anxious to hit

(Continued on Second Page.)

RIVERS HAS STRONGEST HEART OF RING HISTORY.

A MEDICAL examination of Joe Rivers, made in anticipation of today's fight, develops the fact that the Mexican has the most remarkable heart known in the history of the prize ring.

Dr. Fred Bowen, who made the examination, made the following report:

"I made a thorough physical examination of Joe Rivers Friday evening and his pulse rate for his blood pressure proved to be the lowest of any fighter known to prize-ring history. After one hour of hard exertion Rivers's pulse was only 65 beats to the minute, while the lowest ever known before was that of Bat Nelson, who was given credit of having the strongest heart and the lowest heart beat, his being an average of 70 to 75 beats to the minute.

"This makes Joe Rivers's blood pressure and heart beat the most remarkable in the history of the ring.

"I find that Joe is lighter now than he ever was and he is 50 per cent better in physical condition than he was for the Wolgast match. Joe is absolutely confident and is more settled than he ever was. I look forward to a repetition of the Joe Coster fight.

"Rivers is a much-improved boy, not only physically, but with his padded fist as well. He hits straight with his left to better advantage than he did before. I never examined a stronger pair of resistant lungs than Joe Rivers has. After an hour's workout he didn't even draw a long breath. He trained just enough to place him in the pink of condition. I don't think he will grow out of his class for at least a year.

Lucky Fuglita.

BIG MONEY FOR WOLGAST TO FIGHT WILLIE RITCHIE.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Sept. 1.—The biggest prize ring money that has been dangled in front of the eyes of a boxer since the fabulous purse was offered to James Jeffries and two years ago, was hung up tonight by Eddie Graney, promoter and manager of the Tuxedo Club, when he agreed to give Champion Lightweight Ad Wolgast \$15,000 for his end of

RIVERS AND MANDOT ARE READY TO FIGHT.

Joe Mandot Finished His Training by Going Over to the Vernon Ring to Find the Spot to Drop the Mexican—Rivers Stayed at His Mother's House—Much Interest Is Shown in the Chico and Campi Fight.

IN the late hours of this afternoon, either Joe Rivers or Joe Mandot will be eliminated from the race for the lightweight championship of the world. It will be the bitterest day that one of these two boys has ever lived through.

And the same thing goes for Eddie Campi and Battling Chico. The loser of the ten-round semi-wind-up will be erased from the bantamweight championship map.

None of the boys did much work yesterday—merely fussed around enough to amuse the crowds at the training camps.

Afterward, Eddie Campi and Mandot went over to "The Mint" and looked over the ring where they are to fight this afternoon. "I think it will be about here," said Mandot, laughing, "that I will drop the Mex-

ican." "The Mexican" meanwhile was packing up his training camp clothes and getting ready for his trip to town. He always spends the night before his fights at the home of his mother on Bolano avenue. Joe has all the superstitions of a Mexican and he believes that this brings him luck.

Rivers feels fairly confident. It is not that he underestimates Mandot but he feels that, after Wolgast, he has no reason to fear any lightweight.

"I expect," he said as he was leaving the training camp, "to knock out Mandot before the fight has gone very far. I am fully prepared to meet any kind of fighting he cares to bring to me."

As for Mandot, he says, in his gentle southern way, "I wouldn't have come all the way out from New Orleans if I hadn't thought I could beat Rivers. This is his home town and of course they all are proud of him, but coming down to cold facts, I can't see anything in his record that would indicate that I have anything to be afraid of."

With the exception of Johnny Kilbane and Ad Wolgast, I have beaten every "live one" Rivers ever met. I seem to remember that the words "K. O." by accompany the names of Kilbane and Wolgast on Rivers's record. As a matter of fact, the only first-class boys he has fought both knocked him out.

As for Jimmy Dixon, Joe Coster, Jack White, Johnny Reagan, etc., over whom Rivers has won victories, who I have beaten every one of them.

"In addition to these I have fought and beaten such fighters as Matty Baldwin, Grover Hays, Pal Moore, Ray Temple and Owen Moss."

The indications are for a heavy-as-large as that which saw the "Whispering" Rivers fight. The first preliminary will start at 2 o'clock. Rivers and Mandot are bound by contract to weigh in ten minutes after the Battling Chico-Campi fight, which follows the first preliminary. Five minutes after weighing they are to be in the ring ready to fight.

JOE MANDOT'S RECORD.

Born August 3, 1891, New Orleans, La. Height, 5 feet 6 inches. Weight, 130-135 pounds. Nationality, French. Fought 121 rounds out of 121 rounds. New Orleans.

April 4, 1909, won from Phil Silverberg, 5 rounds, New Orleans.

April 14, 1910, won from Billy Warner, 5 rounds, Memphis.

May 5, 1910, won from Tommy Dixon, 5 rounds, Memphis.

May 16, 1910, decision over Charlie White, 5 rounds, Memphis.

June 10, 1910, knocked out Gus White, 1 round, New Orleans.

June 15, 1911, knocked out Johnnie Reagan, 5 rounds, New Orleans.

Oct. 12, 1911, lost to Frankie Carter, 10 rounds, New Orleans.

Aug. 30, 1912, no decision, Mike Sheridan, 5 rounds, New York.

Sept. 25, 1912, knocked out Fats, 10 rounds, New York.

Nov. 15, 1912, won from Tommy Dixon, 10 rounds, New Orleans.

Feb. 15, 1913, lost to Yankee Stewart, 5 rounds, Memphis.

Feb. 20, 1913, knocked out Steve Hernandez, 1 round, Memphis.

March 8, 1913, decision over Yate de Swartz, 5 rounds, Memphis.

March 15, 1913, won from Gene McGowan, 5 rounds, Memphis.

April 17, 1913, won from Charlie White, 5 rounds, Memphis.

May 27, 1913, won from Jack White, 5 rounds, Memphis.

June 19, 1913, won from Yankee Stewart, 5 rounds, Memphis.

June 19, 1913, won from Joe Coster, 5 rounds, Memphis.

July 17, 1913, won from Benny Dismick, 5 rounds, Memphis.

July 17, 1913, won from Ray Kautman, 5 rounds, Memphis.

Sept. 15, 1913, knocked out Joe Thiel, 5 rounds, Memphis.

Sept. 15, 1913, won from Tommy Kilbane, 5 rounds, Memphis.

Oct. 25, 1913, knocked out Tommy Smith, 10 rounds, New Orleans.

Nov. 20, 1913, decision over Matty Baldwin, 5 rounds, Memphis.

Dec. 3, 1913, won from Grover Hays, 10 rounds, New Orleans.

Jan. 8, 1914, won from Billy Allen, 5 rounds, Memphis.

Feb. 15, 1914, won from Pal Moore, 5 rounds, New Orleans.

Feb. 15, 1914, won from Young Jack Ryan, 5 rounds, Memphis.

April 1, 1914, won from Owen Moss, 5 rounds, Memphis.

April 24, 1914, won from Jake Abbott, 5 rounds, Chattanooga.

April 24, 1914, no decision, Tommy Smith, 10 rounds, Indianapolis.

May 14, 1914, no decision, Harry Grant, 5 rounds, St. Louis.

May 14, 1914, lost to Ray Temple, 5 rounds, Memphis.

June 15, 1914, no decision, Willie Frazier, 5 rounds, New Orleans.

July 4, 1914, won from Ray Temple, 5 rounds, Memphis.

JOHNNY KILBANE TO CROSS THE WATER.

(By Federal Wireless) Line to The Times. NEW YORK BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] Champion Johnny Kilbane, 160-pounder, fast featherweight of Cleveland, are due to arrive in town tomorrow. Kilbane will probably take a ship to England and Ireland this winter as he is anxious to see both countries. Abe Attell, the ex-featherweight champion, is another prominent boxer who is expected to get here from California within a few days.

RECORD NUMBER OF HUNTERS AFIELD.

It is estimated that between 12,000 and 15,000 hunters went out for doves either yesterday or today.

Tuft-Lyon Arms Company sold 24,000 shells in cases alone, during the past week in addition to the many sales of lesser magnitude. All the other local houses did a record breaking business during the week.

CUBS KNOCKED BACK BY LOWLY ST. LOUIS TEAM.

Harmon Is in Rare Form, Holding Chance's Men to Seven Swats—Three Fingers Try to Stop the Hammering, but Fail—and One Reds Wallop Mighty Pirates Twice.

[BY FEDERAL (WIRELESS) LINE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, Sept. 1.—[Special Dispatch.] The Cubs today dropped back another half game in their fight to catch the Giants. Bob Harmon had the Chicago batters powerless when hits were needed.

Leifield was batted hard but Reucroft Madden who succeeded him, showed real big league form. Reucroft pitched the last two innings and was as good as Harmon. The fielding of Hauser and Konetchy featured.

Score:

REDS CAME TO LIFE. BEAT PIRATES TWICE.

[By Federal (Wireless) Line to the Times.] CINCINNATI, Sept. 1.—[Special Dispatch.] Cincinnati smothered Pittsburgh this afternoon, taking both games of a double-header. In the first game Harmon and Suggs were in great form, while Camnitz was batted hard. Hoffman was the only Pirate who could do anything with the Red pitchers.

The winning run was scored in the ninth on Hoby's single, out by Mitchell and Frican and a hit by Grant.

The second game was a procession, the Reds leading from the start. Harmon's single and doubles by Marans and Hoby coupled with Grant's long single to right, scored three runs. The Pirates batted viciously, but

With the "Models of the Jardin de Paris," a beauty-feature at the Sullivan-Considee Empress.

COUNTRY CLUB GOSSIP.

DR. W. H. SPINKS was the hero of Saturday's match play against par on the Los Angeles Country Club's links, with a net score of 2 up. He finished 5 down, a most exhilarating score for a 14-handicap man. The allowance was half club handicap, so that his seven strokes gave him a net 2 up. Dr. West Hughes had a similar happy experience, finishing second with 1 up on a 4 handicap.

Then there were four ties for third place with 1 down—J. A. Brock, 1 down; Charles E. Orr, 4-3, 1 down; W. H. Holliday, 9-3, 1 down; and C. W. Pendleton, 10-3, 1 down.

So once again the Amateur Handicapper has justified his autocracy when so many men of varying handicaps and varying style of play can make such a close finish. All the mathematics in the world, with the automatic system, the Calkin system and every other old system thrown in cannot do better than that, and Edward B. Tufts will go down to golf history as the Benevolent Despot Handicapper par excellence, and all that nonsense about rule of the people for the people by the people can be relegated where it belongs.

The Also Rans.
Illustrious amongst the also rans were Norman Macbeth, who remains calm and unruffled; H. G. Fettes of Riverside, who leaves for Del Monte by automobile tomorrow; M. E. Severance of Redlands, Walter Conby, J. J. Mellus, R. H. Ingram, Frank L. Miller, Thomas McCall, R. J. Cash, Jr., H. M. Eichelberger, George Steck, E. N. Coffin, Dr. Ray Smith, Dr. Dudley Fulton, J. E. Cook, David Barry, M. P. Gilbert and L. T. Bradford—quite a goodly showing for the sweepstakes, and there were many who did not join the competition.

The Annandale Country Club.
W. C. Smith won the 18-hole medal play competition on the Annandale links on Saturday afternoon, with a net score of 59. He went round in 87, and this with his "tangible asset" of 18 strokes, carried him to victory.

There was quite a crop of glittering scores, so the angel of achievement must have been hovering over Annandale last week.

Henry Newby and Lincoln Clark showed off with a net 73 on 9 and 8 handicaps respectively. W. L. Hall, the new member, made 79 gross, which his 5 handicap reduced to 74; Paul F. Deins likewise had 74 on a 7 handicap, as also did Joseph Ball on an 8 handicap.

The 7's included George H. Bentley and E. C. Kammemeyer with 14 and 11 handicap respectively, and Howard J. Fish and F. R. Harries made 78 and 79 on 10 and 12 handicaps.

The Rev. W. H. Cornett made the best gross score of the day with 78, a standard we hope he will maintain at Del Monte, where he goes the day after tomorrow. He plays from scratch now, his game having improved so markedly during the past month or two.

The links were very well patronized and other players to be seen were C. F. Fleming, A. B. Scher, C. K. Alley, Edward Elliot, E. H. Stratford, J. W. Monahan, E. H. Lockwood, W. A. Shaw, Thomas Tavoron, John F. Taylor, Frank D. Tatum, J. L. Preston and Charles N. Post.

The Professionals.
F. W. Palmer, a member of the Annandale Country Club, got up a match for the professionals on the links last Thursday, when the honors

were won by Hutton Martin of the Los Angeles Country Club. He made a medal score of 75 and showed some very skillful play.

Fred Gardner of St. Louis is here and it was in order to give him a game that the affair was arranged. Joseph Martin and A. M. Goodhue of Long Beach also took part.

The Del Monte professional, MacDonald Smith, one of the five famous brothers, has just won the valuable money prize put up at the Kenosha Country Club, Wisconsin, with a score of 147 for the 36 holes. He went from there to the big open event at the Idylwild Country Club, Bloomer, Ill., which takes this week end but will return in time for the big Coast next Friday.

The Smith brothers have been doing well this year. Alexander, the eldest having been runner-up in the National Open against J. J. Mac Dermott, whose predecessor in the title he was. Willie Smith is at the Mexico City Country Club and James is at Santa Cruz. George is at Del Monte with MacDonald.

Country Club Social Affairs.
The most interesting social event

Ernest Glendenning.

Young local actor, who scored heavily in New York a year or two ago in "Baby Mine," and who will return to the Hamburger Majestic Theater in his part in that play today

FROM THE MASON TO THE MAJESTIC

By JULIAN JOHNSON.

Dick Tully—Richard Walton among the tail foreheads—is now an actor.

The promoter of Bedouin horse farms made his appearance at the Garrick Theater, Chicago, last Thursday afternoon in his own drama, "The Bird of Paradise," which was beginning its second year.

The role he played was Kala—perhaps you remember the part, and perhaps you don't.

It all came up through the sudden illness of Robert Harrison, who, at the last moment, had to go to a hospital with an affection of the eyes. Joseph Burton took Harrison's part, Hoheno.

The regular opening of the "Bird" took place yesterday.

If some of the Morocco things in New York keep bonding to pull them through there's the bank, for sure.

And if this should keep up during the whole year accrued royalties might enable Author Tully to afford a shave and a shine in the same day.

Another very interesting piece of news is that Dick Tully has entirely rewritten "The Fox."

The ancient synonym of making Rome howl will apply, several times, to Author Lee Arthur, when he hears this.

Lee seems to be the ne'er-do-well among dramatists, as far as any continued or permanent success is concerned, but he was as pernickily about having a little to do with his productions as an old hen when a puppy attempts to muss up her one-day-old chickens.

I see floating before my eyes, in exclamation points, and red scare-headers, Lee's criticism of Dick's revised version of his own play.

Nevertheless, I'm told that Tully's master-craftsmanship has wrought some splendid changes in the Arthur manuscript.

Now who's to play it? It was intended for Nat Goodwin, but that comedian's illness has made everything indefinite and uncertain.

Will A. Byron Beasley, now in "Kindlings" tour of the semi-tankards, take up his old role of the decidedly fox grandpa?

I know of no better nominees at the moment.

The Chicago writers said that John Burton scored a splendid success by making the monkey, in "The Bird," thoroughly human. Morocco says he's the best who ever played the role.

"There is no musical show in Chicago," half as entertaining as "The Polka," writes Morocco. "Nor are there any such clever young people as Percy Bronson and Olga Steck—either would be a knockout here."

Yes, and I might add: Darned few such good conductors as Harry James.

The Morocco family will leave Tuesday for a motor trip to New York, occupying three or four days.

C. M. Pyke will be with L. E. Behrmer this winter as circuit representative. Where's J. L. Allen of the lionine mane?

And is Mr. Pyke's first name Charlie?

Be himself will be at home about the 10th inst.

Orrin Johnson arrived in Los Angeles yesterday noon, and attended the Orpheum matinee with James Neill.

Both Mr. Johnson and Mr. Neill have more than a curious interest in "A Light From St. Agnes," Bertha Kirk's sketch.

Mr. Neill was driving on Long Island with Mrs. Fiske, one afternoon about ten years ago, when she received the inspiration for the piece.

And Mr. Johnson was Mrs. Fiske's leading man, when she played it.

The only thing I have against Johnson as an actor, so far, is his good looks.

He is certainly some Praxitelean model.

His name is all right, certainly! He will commence rehearsals with Margaret Leslie Tuesday morning in "The Gambler," which seems pretty certain to go on a week from tonight.

I have a card from Ferris Hartman, mailed at Honolulu: "I'm saying hello from the steamship China, bound for Manila. Just passed through a terrific electric storm."

I still think the Hartmans will wind up at the Lyceum later on this season.

Mentioning Lyceum futures brings us to a consideration of its present condition.

Though Pop Fischer has done his experienced best, and notwithstanding

the presence of some cocking artists, in the past six months, the Lyceum is away to the had as a money-maker.

This is the probable last week of the present musical show, though little Bud Duncan, inaugurating himself yesterday, seems likely to be a better investment than Rice and Cady.

Seems to me a good future for the Lyceum would be high-class feature films—a picture-house of the first order.

The Auditorium may get the Lamhard opera season, notwithstanding its Cort booking, and the fact that it is playing the Cort Theater in San Francisco—making the Majestic Theater logical here.

If the arrangement is made it will be a desirable one.

Big business in the theater, as elsewhere, is canning the fight stuff.

At his coming testimonial performance Harry Duffield, who bears with beautiful ease and dignity his seniority among Southern California actors, will play the fourth act of "Enoch Arden." This is the island scene, and is one of the most effective and moving passages in the whole range of the last generation's favorite drama.

Gus Inella, Clum's manager at the regenerated Grand, was once an actor.

His name here as the boy in one of Lew Welch's turns.

And he liked the climate, as did the late Mr. Cabrillo et al, so he stayed.

The local lodge of Elks is taking keen interest in the Duffield testimonial performance at the Burbank, which will be given September 10.

A feature will be the appearance of the Elks' champion drill team, twenty-four in number.

Dana Hayes of Los Angeles, the youngest manager on the Sullivan-Considee circuit, now situated at Tacoma, writes me: "After two months of hustling I've gotten things straightened out, and my house is running nicely—but after all there is no place like Los Angeles."

Ethel Barrymore, I understand, will begin her Orpheum Circuit tour next week.

And when will brother John commence playing "Anatole" at the Tins Theater?

Right soon, I suppose.

Remember Silvers, the famous Barum & Bailey clown, whose silent baseball game was the most artistic feature that great and varied circus ever presented?

Silvers has just been booked by the Orpheum circuit, and will be West late this fall.

That ball game is the basis of his act.

Elsa Ruenger, the cellist, a Behrmer star of last year, is another Martin Beck pick-up.

Humor on yesterday's Jaybarnes stuff. "To all dramatic editors: Remember, that the more you boost 'The Deep Purple' the less you may have to work this hot weather. Think it over!"

\$500.00 Piano.
The second prize in "The Times Bookkeeper" is a \$500.00 piano, with a player attachment. This is a beautiful instrument and would be an ornament in any home. If you cannot play the piano yourself, the player attachment will furnish you all the latest and best music.

Notice to Parents.
School begins September 10. See page 4 and 1, Part 1, for "before school" notice.
